SÉNAT

Avis de bills privés

107. Toute demande adressée au Parlement pour obtenir un bill privé doit être annoncée par avis publié dans la *Gazette du Canada*; cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et désigner l'adresse des signataires; et si la demande a pour objet l'obtention d'une loi en constitution de corporation, l'avis doit aussi mentionner le nom de la compagnie dont la constitution est projetée.

Outre l'avis dans la *Gazette du Canada*, comme susdit, pareil avis doit être donné de la façon suivante:

(A) Lorsque la demande a pour objet l'obtention d'une loi constituant en corporation:

1. Une compagnie de chemin de fer ou de canal—dans un des principaux journaux de la principale cité, ville ou village de chaque comté ou district par où doit passer le chemin de fer ou le canal dont la constitution est projetée;

2. Une compagnie de télégraphe ou de téléphone—dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire dans lequel la compagnie se propose d'exercer des opérations;

3. Une compagnie ayant pour objet l'exécution d'entreprises dont l'exploitation pourrait spécialement affecter une localité particulière, ou cherchant à obtenir des droits ou privilèges exclusifs, ou voulant accomplir toute affaire ou chose dont l'accomplissement affecterait les droits ou propriétés d'autrui—dans un des principaux journaux de l'endroit ou des endroits particuliers que le projet de loi peut affecter;

4. Une compagnie de banque; compagnie d'assurance; compagnie fiduciaire; compagnie de prêt ou compagnie industrielle, sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis, et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante:

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention: "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçu par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examineur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux

cents dollars avec les frais d'impression de la loi pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui rééditent l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas: crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimé en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

L. C. MOYER,
Greffier du Sénat.

EXTRAIT DU RÈGLEMENT DE LA CHAMBRE DES COMMUNES TOUCHANT LA PUBLICATION DES AVIS

95. (1) Toute pétition introductive de bill privé de quelque nature qu'il soit, doit être annoncée par avis publié dans la *Gazette du Canada*. Cet avis doit exposer clairement et distinctement la nature et l'objet du bill projeté; il doit être signé par les pétitionnaires ou en leur nom, avec indication de l'adresse des signataires. Si la pétition tend à une loi de constitution en corporation, l'avis doit mentionner le nom de la compagnie projetée. Si les travaux d'une compagnie, qu'elle soit constituée en corporation ou qu'il s'agisse de la constituer en corporation doivent être reconnus comme étant destinés à profiter au Canada d'une manière générale, l'avis doit énoncer cette intention expressément, et les pétitionnaires doivent faire parvenir une copie de cet avis par lettre recommandée, au secrétaire de chaque comté ou municipalité que la construction

ou la mise en œuvre de ces ouvrages peut intéresser, ainsi qu'au secrétaire de la province où ces mêmes ouvrages sont ou pourront être situés. Tout avis ainsi expédié par lettre recommandée doit être mis à la poste assez tôt pour arriver à destination au moins deux semaines avant la prise en considération du bill par le comité auquel il peut être renvoyé. La preuve que les requérants se sont conformés à cette règle s'établit au moyen d'une déclaration statutaire.

(2) Outre l'avis devant figurer dans la *Gazette du Canada*, il doit en être publié un semblable dans quelque journal important, comme suit:

(A) 1. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de chemin de fer ou de canal, cet avis similaire doit être publié dans la principale cité, ville ou municipalité de village de chaque comté ou district que doit traverser le chemin de fer ou le canal projeté;

2. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de télégraphe ou de téléphone, cet avis similaire doit être publié dans la principale cité ou ville de chaque province ou territoire où la compagnie en question se propose d'établir son service;

3. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie créée en vue de la construction de tous ouvrages dont l'établissement ou la mise en œuvre pourrait intéresser tout particulièrement une localité quelconque, ou en vue de tous droits ou privilèges exclusifs, ou encore en vue de toute opération qui pourrait porter atteinte aux droits ou aux biens d'autrui, cet avis similaire doit être publié dans les diverses localités où la loi projetée pourrait porter atteinte aux affaires, droits ou biens d'autres personnes ou compagnies;

4. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation un établissement bancaire, une compagnie d'assurance, une compagnie de fiducie, une compagnie de prêts ou une compagnie industrielle non dotée de pouvoirs exclusifs, il suffit d'un avis dans la *Gazette du Canada*.

(B) 1. Lorsque la pétition a pour objet de modifier une loi existante en vue de prolongement de tout chemin de fer ou canal ou de la construction d'un embranchement de voie ferrée ou de canal, il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité, ville ou municipalité de village de chaque comté ou district devant être desservi par ce prolongement ou cet embranchement.

2. Lorsque la pétition a pour objet de modifier une loi existante en vue de prorogation du délai fixé pour la construction ou l'achèvement de toute ligne de chemin de fer, de tout embranchement ou prolongement de ligne de chemin de fer, de tout canal, de tout réseau télégraphique ou téléphonique, ou de tout ouvrage déjà autorisé il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité ou ville de chaque district intéressé.

3. Lorsque la pétition a pour objet de modifier une loi existante en vue de la continuation d'une charte ou de l'extension des pouvoirs d'une compagnie (quand elle ne comporte pas la concession de droits exclusifs); ou en vue de l'augmentation ou de la réduction du capital-actions d'une compagnie quelconque; ou en vue de l'accroissement ou de la modification de sa faculté d'émettre des obligations ou de contracter des emprunts d'un autre genre; ou encore en vue de toute modification tou-

chant aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie, il est publié un avis à l'endroit où est situé le siège social de la compagnie ou à l'endroit où la compagnie est autorisée à établir son siège social.

(C) Lorsque la pétition a pour objet d'obtenir, pour quelque personne ou corporation existante, des droits ou privilèges exclusifs ou encore la faculté d'accomplir une chose dont la mise en œuvre intéresserait les droits ou biens d'autrui, il est publié un avis dans les localités où les affaires, les droits ou les biens d'autrui peuvent être spécialement compromis par la loi projetée.

(3) Tout avis de ce genre, qu'il soit inséré dans la *Gazette du Canada* ou dans un journal, doit être publié au moins une fois par semaine durant une période de quatre semaines consécutives. Lorsque la pétition prend naissance dans la province de Québec ou dans la province du Manitoba, l'avis en doit être publié en anglais dans un journal anglais et en français dans un journal français, ainsi qu'en anglais et en français dans la *Gazette du Canada*. S'il n'y a pas de journal dans la localité où il faut annoncer ladite pétition l'avis doit être publié à l'endroit le plus rapproché où est imprimé un journal. La preuve que l'avis en question a été dûment publié s'établit dans chaque cas, par voie de déclaration statutaire. Toute déclaration de cette nature doit être envoyée au greffier de la Chambre, et cela doit porter au dos l'indication: "Avis de bill privé".

Pétitions introductives de bills privés

92. Nulle pétition introductive de bill privé n'est reçue par la Chambre si elle n'est pas présentée dans les six premières semaines de la session. Tout bill privé prenant naissance à la Chambre des communes doit y être présenté dans les deux semaines qui suivent le jour où la pétition a été rapportée favorablement par l'examineur des pétitions ou par le comité du Règlement. Nulle motion portant suspension du présent article ne peut être accueillie à moins que le comité du Règlement n'ait préalablement présenté un rapport recommandant cette suspension, en y consignant les motifs de sa décision.

97. Nulle pétition portant constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie se proposant d'exploiter un canal, ou portant prolongement d'une ligne de chemin de fer ou d'un canal existant ou autorisé, ou portant construction d'un embranchement de voie ferrée ou de canal, ne sera prise en considération par l'examineur, ou par le comité du Règlement, tant qu'il n'aura pas été déposé entre les mains dudit examinateur une carte ou un plan indiquant l'endroit où se trouveront ces ouvrages, et chaque comté, canton, municipalité ou district à travers lequel le chemin de fer, le canal, le prolongement ou l'embranchement projeté doit être construit.

Bills privés

93. (1) Quiconque désire obtenir un bill privé doit déposer entre les mains du greffier de la Chambre, au plus tard le premier jour de la session, une copie de ce bill en anglais ou en français, ainsi qu'une somme suffisante pour en défrayer la traduction, qui est faite par le personnel de la Chambre, et l'impression, qui est exécutée par le département des impressions publiques.

(2) Le promoteur d'un bill privé doit, après la deuxième lecture de ce bill et avant sa prise en considération par le comité qui en est saisi, défrayer l'impression de la loi dans le recueil des statuts et payer un droit de cinq cents dollars.

FRAIS ADDITIONNELS

(3) En sus des frais précités, les droits suivants doivent être imposés et payés:

a) Lorsqu'il y a suspension d'un article du Règlement relativement à un bill ou à la pétition introductive qui s'y rattache	\$ 100
b) Lorsqu'un bill est présenté en Chambre après la huitième semaine et avant l'expiration de la douzième semaine de la session	100
c) Lorsqu'un bill est présenté en Chambre après la douzième semaine de la session	200
d) Lorsque le capital-actions projeté d'une compagnie ne dépasse pas \$250,000....	100
e) Lorsque le capital-actions projeté d'une compagnie dépasse \$250,000, mais n'est pas supérieur à \$500,000.....	200
f) Lorsque le capital-actions projeté d'une compagnie dépasse \$500,000, mais n'est pas supérieur à \$750,000.....	300
g) Lorsque le capital-actions projeté d'une compagnie dépasse \$750,000, mais n'est pas supérieur à \$1,000,000.....	400
h) Lorsque le capital-actions projeté d'une compagnie dépasse \$1,000,000, mais n'est pas supérieur à \$1,500,000.....	600
i) Lorsque le capital-actions projeté d'une compagnie dépasse \$1,500,000, mais n'est pas supérieur à \$2,000,000.....	800
j) Pour chaque million de dollars de capital-actions additionnel ou fraction de million	200

(4) Lorsqu'un bill porte augmentation du capital-actions d'une compagnie existante, le droit additionnel à déboursier est basé sur le tarif précité, et il n'y est fait état que du montant de l'accroissement.

(5) a) Lorsqu'un bill tend à l'augmentation de la faculté d'emprunt d'une compagnie ou en comporte l'augmentation sans qu'il y ait accroissement du capital-actions, le droit additionnel est de trois cents dollars.

b) Lorsqu'un bill porte augmentation à la fois du capital-actions et de la faculté d'emprunt d'une compagnie, le droit additionnel est perçu sur les deux.

(6) Si, à quelque phase du bill, il y a augmentation du capital-actions projeté d'une compagnie ou de sa faculté d'emprunt, le bill en question ne peut franchir une autre étape tant que ces promoteurs n'auront pas soldé les frais occasionnés par cette modification.

(7) Dans la présente règle, l'expression "capital-actions projeté" comprend toute augmentation de capital-actions prévue par le bill; et quand un bill porte faculté d'augmenter à quelque époque le chiffre du capital-actions, le droit additionnel est calculé sur le maximum de l'augmentation projetée, dont le bill fait mention.

(8) Les droits additionnels établis par la présente règle s'appliquent aussi aux bills privés qui ont pris naissance au Sénat; néanmoins, si la pétition introductive d'un bill privé de ce genre a été présentée à la Chambre des communes dans les six premières semaines de la session, les droits additionnels prévus aux alinéas b) ou c) du paragraphe 3 ne sont pas exigibles.

Du bill-type

96. (1) Le greffier en chef des bills privés remplit les fonctions d'examineur des bills privés, et, comme tel, il est tenu d'étudier et de réviser tous les bills privés antérieurement à leur impression, en

vue d'y établir une certaine uniformité, lorsque la chose est possible, et de s'assurer qu'ils ont été élaborés conformément aux articles du Règlement de la Chambre relatifs aux bills privés.

(2) Tout bill tendant à la constitution en corporation d'une compagnie doit, lorsqu'il a été adopté une formule de bill-type, être rédigé en conformité de ce modèle, dont il peut être obtenu des exemplaires du greffier de la Chambre. Toute disposition d'un bill de ce genre qui n'est pas conforme au bill-type doit être insérée entre crochets ou soulignée, et elle doit être imprimée de la sorte.

(3) Lorsqu'un bill privé porte modification d'un article, paragraphe ou alinéa quelconque d'une loi existante, ce même article, paragraphe ou alinéa doit être abrogé dans le texte du bill et reconstitué selon la modification que les auteurs du bill veulent y apporter, la nouvelle rédaction devant être soulignée. L'article, le paragraphe ou alinéa que les auteurs veulent faire abroger, ou encore ce qu'il renferme d'essentiel, doit être imprimé sur la feuille du côté droit en regard de ce même article, paragraphe ou alinéa.

(4) Lorsqu'un bill privé tend à abroger un article, paragraphe ou autre partie d'un article, cet article, ce paragraphe ou cette autre partie, ou encore ce qui s'y trouve d'essentiel, doit être imprimé en regard de l'article du bill.

(5) Une note établissant brièvement l'objet d'une disposition d'un caractère exceptionnel ou dont la teneur s'écarte des dispositions du bill-type ou des articles servant de modèle, doit être imprimée en regard de l'article du bill.

CARTE OU PLAN ACCOMPAGNANT LE BILL

98. APPLICATIONS TO PARLIAMENT

THE SENATE

Copies of the Rules of the Senate relating to Notices and Applications for Bills of Divorce may be had free upon application to the

Clerk of the Senate,
Ottawa.

THE SENATE

Notice for Private Bills

EXTRACTS FROM THE STANDING RULES OF THE SENATE

107. All applications to Parliament for Private Bills, of any nature whatsoever, shall be advertised by a notice published in the *Canada Gazette*. Such notice shall clearly and distinctly state the nature and object of the application, and shall be signed by or on behalf of the applicants, with the address of the party signing the same; and when the application is for an Act of Incorporation, the name of the proposed company shall be stated in the notice.

In addition to the notice in the *Canada Gazette* aforesaid, a similar notice shall be given as follows:

A. When the application is for an Act to incorporate,—

1. *A Railway or Canal Company.*—In some leading newspaper published in the principal city, town or village in each county or district through which the proposed railway or canal is to be constructed.

2. A *Telegraph or Telephone Company*.—In a leading newspaper in the principal city or town in each province or territory in which the company proposes to operate.

3. A company for the *construction of any works* which in their construction or operation might specially affect a particular locality or for obtaining any *exclusive rights or privileges*, or for doing any matter or thing which in its operation would affect the rights or property of others.—In a leading newspaper in the particular locality or localities which may be affected by the proposed Act.

4. A *Banking Company; an Insurance Company; a Trust Company; a Loan Company, or an Industrial Company*, without any exclusive powers.—In the *Canada Gazette* only.

5. And, if the works of any company (incorporated or to be incorporated) are to be declared to be for the general advantage of Canada, such intention shall be specially mentioned in the notice; and the applicants shall cause a copy of such notice to be sent by registered letter to the clerk of each county council and of each municipal corporation which may be specially affected by the construction or operation of such works, and also, to the Secretary of the Province in which such works are, or may be located; and proof of compliance with this requirement by the applicants shall be established by statutory declaration.

B. When the application is for the purpose of amending an existing Act,—

1. For an extension of any line of railway, or of any canal; or for the construction of branches thereto,—the same *mutatis mutandis* as for an Act to incorporate a Railway or Canal Company.

2. For an extension of the time for the construction or completion of any line of railway, or of any canal, or of any telegraph or telephone line, or of any other works already authorized:—In a principal newspaper in the place where the head office of the company is, or is authorized to be.

3. For the extension of the powers of a company (when not involving the granting of any exclusive rights) or for the increase or reduction of the capital stock of any company; or for increasing or altering its bonding or other borrowing powers; or for any amendment which would in any way affect the rights or interest of the shareholders or bondholders or creditors of the company:—In a principal newspaper in the place where the head office of the company is situated.

C. All such notices, whether inserted in the *Canada Gazette* or in a newspaper, shall be published at least once a week for a period of four consecutive weeks; and when published in the Provinces of Quebec and Manitoba shall be in both the English and French languages; and *marked copies* of each issue of all newspapers containing any such notice shall be sent to the Clerk of the Senate, endorsed "Private Bill Notice," or a statutory declaration as to due publication may be sent in lieu thereof.

Every notice by registered letter shall be mailed in time to reach the Secretary of the Province and the clerk of each county council and municipal corporation not less than two weeks before the consideration of the petition by the Committee on Standing Orders; and a statutory declaration establishing the fact of such mailing shall be sent to the Clerk of the Senate.

108. No petition praying for the incorporation of a Railway Company, or of a Canal Company, or for

an extension of the line of any existing or authorized railway or canal, shall be considered by the Standing Orders Committee, until there has been filed with the Committee a map or plan, showing the proposed location of the works, and each county, township, district or municipality through which the proposed railway or canal, or any branch or extension thereof, is to be constructed.

110. Petitions for private bills shall only be received by the Senate if filed with the Clerk of the Senate within the first six weeks of the Session, and every private bill originating in the Senate shall be presented to the Senate within two weeks after the petition therefor has been favourably reported upon by the examiner of petitions or by the Committee on Standing Orders, and no motion for the suspension of this standing order shall be entertained unless a report has been first made by the Committee on Standing Orders recommending such suspension.

114. Any person seeking to obtain a Private Bill shall deposit with the clerk of the Senate, if it is intended that the Bill shall originate in the Senate, a copy of such Bill in the English or French language, with a sum sufficient to pay for the translation of the same by the officers of the Senate, and the printing of 600 copies in English and 200 in French. The applicant shall also pay the Clerk of the Senate, immediately after second reading and before the consideration of the Bill by the Committee to which it is referred, a sum of \$200, with the cost of printing the Act in the Statutes, and lodge the receipt for the same with the Clerk of such Committee.

The fee payable on the second reading of any Private Bill is paid only in the House in which it is introduced.

Form of a Bill to Amend an Act

60A. (1) In the preparation of Bills amending existing enactments the amendments shall not ordinarily be made by clauses which add or leave out words or substitute words for others, but by clauses which re-enact the section, subsection or other minor division, as it is amended.

(2) In the text of the Bill, on the left hand page, new matter shall be indicated by such typographical means as may best suit the varying circumstances of each case, such as brackets, italics, underlining, asterisks, etc. Opposite each clause, on the right hand page, the enactment amended thereby, or so much thereof as is essential, shall be printed with the proposed changes to be made therein similarly indicated.

(3) When a clause repeals an existing section, subsection or other minor division of a section, that section, subsection or division, or so much thereof as is essential, shall be printed opposite the clause.

(4) A memorandum by the draftsman explaining briefly the reason for each clause, shall be appended to the Bill, or distributed therewith. Whenever practicable the memorandum shall be printed on the right hand page of the Bill, in paragraphs opposite the clause referred to and numbered correspondingly.

(5) The above rules shall also as far as practicable apply to the reprinting of Bills.

97. 6. Except with the consent of the Director, permits shall not be issued to cut green timber on areas where it is deemed by a Forest Officer that proper forest management requires the prohibition of such cutting.

7. The Timber Agent may add special conditions to a permit to ensure that cutting operations are conducted in accordance with approved silvicultural methods and that logging roads are constructed with a minimum of damage to standing timber.

8. Only such material shall be cut as is authorized by the permit and cutting shall only be done on the lands described in the permit.

16. No permit shall be transferred or assigned.

17. (1) In each and every permit issued under these regulations, there shall be implied the following conditions and stipulations:

(a) that dues on timber cut under any permit, which are not paid at the time they become due, shall together with interest, be a lien on any timber cut by the permittee or his agents on Dominion lands.

(b) that in case of non-payment of such dues and interest, the Timber Agent or a Timber Inspector acting on his behalf, may seize so much of the timber cut under a permit by the permittee or his agent, as will be, in his opinion, sufficient to secure the payment of such dues, interest and the expenses of seizure and sale, and may detain such timber as security for the payment thereof.

(c) that if payment is not made within three months after such seizure, the Timber Agent may, with the consent of the Director, sell such timber by public auction and after deducting the sum due to the Crown for dues, interest and expenses, he shall pay the balance, if any, to the person who had possession of such timber at the time.

Where the permittee is a sawmill owner, he shall maintain his sawmill in such condition that the lumber sawn from the timber cut under the authority of his permit, is manufactured to a standard satisfactory to the Timber Agent or a Timber Inspector, and if he fails to do so after thirty days' notice in writing, the Director may cancel the permit.

27. (1) When in the opinion of the Director, it is desirable in the public interest to dispose of rights to cut timber in an area by competition, the Timber Agent shall, on instructions from the Director, post notices in post-offices in the vicinity of such area and invite tenders.

Dominion Government securities held by the chartered banks declined \$669 millions during 1947, largely as a result of Government debt retirement. This reduction of security holdings would, in itself, have been accompanied by a reduction in the total of the banks' Canadian deposits by a corresponding amount. However, there was a more than offsetting increase during the year of \$777 millions in the banks' Canadian loans and investments other than Dominion Government securities, and, including the effect of changes in other items, the total of their Canadian deposits rose by \$178 millions.

The daily average amount of chartered banks' cash reserves in 1947 was \$2 millions less than in 1946. Nevertheless total Canadian dollar deposits increased, as referred to above. For both of these reasons, therefore, the cash ratio of the banks declined, and averaged 10.8 per cent in 1947 as compared with 11.4 per cent in 1946.

During 1947 the Dominion Government retired the balance of the Deposit Certificates which had been issued to chartered banks in previous years and of which \$490 millions were outstanding as at December 31, 1946. These Certificates were the chief means by which the Government's direct borrowing needs from the banks were met during the war years, and at one time in the fall of 1945 reached a peak issue of \$1,340 millions. In 1947 the Government also paid off in cash certain maturities of other securities of which the banking system held a substantial portion.

During 1947 there was a net decline of \$170 millions in chartered bank holdings of Dominion Government bonds (excluding special banking securities such as Deposit Certificates). This decline was largely accounted for by the Government paying

off certain maturities, as mentioned in the preceding paragraph, rather than by net sales in the market. However, there were certain times during the year when banks were sellers of short and medium term Government bonds in order to maintain their cash position.

The increase of \$461 millions in chartered banks' Canadian loans during 1947 was the largest annual increase on record. There was no increase in financial loans for the purpose of carrying bonds and shares and more than half of the loan expansion during the year was accounted for by loans to merchandisers and manufacturers. We estimate that loans to wholesale and retail merchandisers rose about \$120 millions in 1947 and loans to manufacturers another \$160 millions. Higher commodity prices, some increase in the volume of inventories and an upward trend in the amount of outstanding consumer credit, all contributed towards the sharp increase in banks' current loans during the year. In addition, there were undoubtedly cases where bank borrowers obtained additional credit against their current assets such as inventory and receivables, for the purpose of obtaining funds to meet capital expenditures.

Chartered banks' holdings of provincial and municipal securities increased by \$169 millions during 1947, and their portfolio of other non-government securities—largely corporate debentures—by \$147 millions. In the case of provincial, municipal and corporate investments, most of the increase in banks' holdings has been due to acquisition at time of issue rather than to market purchases. The important extent of the banks' participation in the market for these securities in recent years is shown in the following table, which compares the increase in banks' holdings of the above-mentioned investments with the net amount of new cash raised through the issue of such securities.

It is clear that the present rate of capital development is straining Canada's manpower and material resources, and is pushing up prices. At the same time business, which in general entered the post-war period with unusually large liquid reserves, has been looking increasingly to banks for financing.

In my last annual report covering the year 1946, I referred to the fact that Canadians, like people in most other countries, had in recent years chosen to hold an increasing amount of their accumulated savings in the form of interest-bearing savings deposits†. It was pointed out that the banks had found it necessary to invest in Dominion Government bonds in view of the fact that their scope for employing such funds in making commercial loans had been relatively limited.

During 1947 there was a marked change in this situation. A large increase took place in banks' loans and non-Dominion Government investments, to which reference has already been made, and in comparison with previous years the public chose to transfer a somewhat smaller amount of its accumulated savings into the form of interest-bearing deposits. Banks were not in the position, as in earlier years, of seeking to invest in Government bonds, and during 1947 the ratio of such securities to personal savings deposits declined appreciably below the maximum of 90 per cent which was recognized in the agreement between banks and Government early in 1946.

SECURITY MARKETS

Prices for Dominion Government bonds were steady in Canada during 1947, the yield on the longest dated issue approximating 2.60 per cent throughout the year. Early in January, 1948, the Bank discontinued its practice of furnishing daily quotations for Dominion Government securities to investment dealers and chartered banks, but continued to buy and sell in the market. Market prices declined at this time to a level where a yield of about 2.80 per cent could be obtained on the longest Victory Loan issue.

The Government bond market in the United Kingdom showed wide fluctuations during 1947. The longest dated issue sold at a price to yield approximately 3.00 per cent at the end of 1947, as compared with about 2.40 per cent a year before. Government bonds changed little in price in the United States during the first three quarters of the year, but in the last quarter declines took place bringing the yield on the longest issue from 2.33 per cent to 2.48 per cent.

Provincial, municipal and corporation bond prices in Canada declined during the last quarter, resulting in a widening of the spread in yield between such issues and those of the Dominion Government.

The table of net new Canadian bond and stock issues, less retirements, which is given in Appendix A, shows 1947 to have been in even sharper contrast with the wartime years than was 1946. Dominion Government domestic bonds outstanding declined \$239 millions during 1947 as compared with an increase of \$201 millions in 1946. There was also a net reduction of \$346 millions during 1947 in the amount of Dominion Deposit Certificates, Treasury Bills and Short Term Notes outstanding.

The first series of Canada Savings Bonds which was introduced in October, 1946, remained on sale until the end of August, 1947. Sales during 1947 totalled \$48 millions, making total sales for the issue \$535 millions; the amount outstanding at the end of 1947 was \$417 millions. In October a second series was offered and by the end of December about 900,000 individuals had subscribed for a total of \$267 millions. There is one major change in the terms of the second series, in that holdings are limited to \$1,000 per person; the limit on the first series was \$2,000 per person. Many reports have testified to the value of the special features of the Canada Savings Bond, and particularly of the Pay-roll Savings Plan, in meeting the needs of those who wish to save on a systematic basis.

During 1947 the totals of provincial, municipal and corporate bonds outstanding all increased. This marked the first increase in outstanding provincial debt since 1940, the first increase in corporate debt since 1936 and the first appreciable increase in municipal debt since 1932. New issues of common and preferred stock were greater in amount than in 1946 and the largest for many years. Taking all non-Dominion Government securities as a group, the net increase in the amount outstanding was \$263 millions in 1947 as compared with \$59 millions in 1946 and a net reduction of \$48 millions in 1945. Towards the end of 1947 signs of congestion appeared in the new issue market and flotations of common and preferred stock fell to a low level.

ECONOMIC DEVELOPMENTS ABROAD

Before turning to general economic conditions in Canada, it is necessary to refer briefly to certain developments abroad. A year ago, although Western European countries were still suffering from war-time losses of capital equipment and foreign assets, from depleted stocks of fuel and raw materials, and from war-created distortions in the distribution of their labour force, domestic recovery seemed to be well under way. During 1947, however, production in these countries suffered a series of reverses. During the winter unprecedented snow and cold disrupted transport and precipitated a fuel crisis. In the spring, floods interfered with crop planting. Subsequently, drought further reduced Western European

food production and led to a shortage of hydro-electric power. Later in the year industrial production in some countries was severely hampered by widespread strikes.

As a result, although the year closed on a more hopeful trend than had been in evidence a few months before, Western Europe's recovery had been seriously set back, and heavy emergency imports of food were required from the Western Hemisphere for the present crop year. It also became increasingly clear during 1947 that economic unification of Germany and the rebuilding of normal trade between Eastern and Western Europe would at best be hampered or at worst might be prevented by political factors.

UNITED STATES

A year ago it was generally expected that 1947 would see the attainment of a better balance between supply and demand in the United States. Many indeed forecast that some recession would take place before the end of the year. However, this did not happen during 1947, an important reason being the unfavourable European developments already referred to, which brought unexpectedly heavy demands

into the United States market. Total foreign expenditures on goods and services in the United States were about \$19 billions in 1947 as compared with \$15 billions in 1946, and their impact was greater than these figures indicate because of the intensity of foreign demand for food products and particularly grains.

Another key factor in the United States situation is its capital development boom. Capital investment had risen to a vulnerably high level at the beginning of 1947 and showed signs of faltering early in the year. Subsequently, however, it rose still further in spite of very high costs, and totalled in value more than \$30 billions in 1947 as compared with less than \$25 billions in 1946.

With these two critical demand factors in the United States market showing continued expansion, and with price control no longer in effect, the U.S. price level rose appreciably during the year. The general wholesale price index increased by 16 per cent during 1947, and the index of consumer prices by 9 per cent. Average hourly earnings in manufacturing industry rose by about 11 per cent over the year, and average weekly earnings by nearly 12 per cent.

Prices during 1948 will clearly depend to an important extent on grain crop prospects and harvests in Western Europe and the chief exporting countries. Last year the total tonnage of grain produced in this area as a whole was down about 12 per cent from 1946. Any substantial improvement over the disappointing results for 1947 would have a strong anti-inflationary influence.

EMPLOYMENT AND PRODUCTION IN CANADA

Against a world-wide background of heavy demand for goods and rising prices, economic activity in

Canada rose during 1947 to a new peace-time peak. A year ago unemployment was already at the very low level of less than 3 per cent of the working force, and only a small net addition to the number at work could be expected from this source during 1947. In point of fact the slight further reduction of 30,000 in the number of unemployed was about offset by voluntary withdrawals from the working force over the year. Consequently most of the 100,000 or 2 per cent increase in over-all employment is attributable to natural growth of the working force, which accounted for about 60,000, and to immigration.

Increases in industrial productivity, which normally occur rather slowly in any case, were limited in 1947 by continuing bottlenecks in the supply of certain basic materials such as steel. The available information suggests that industrial output rose by about 10 per cent during the year, while the volume of agricultural production was reduced by about 7 per cent owing to unfavourable crop conditions. The output of services, which account for about one-third of total employment and a somewhat higher proportion of the total value of production, is difficult to estimate. However, the production of services was probably very little higher in 1947 than in 1946, and it seems likely that the over-all physical volume of production of goods and services combined showed only a slight increase for the year.

EXPENDITURE AND PRICES

While the physical volume of Canadian production of goods and services increased only slightly from 1946 to 1947, over-all dollar expenditure on Cana-

dian goods and services rose substantially. Foreign expenditure in Canada increased by about 10 per cent from the extraordinarily high peacetime level of the previous year. Private capital expenditure on plant, equipment and housing increased by more than 50 per cent, and the book value of inventories rose by about 30 per cent over the year. Consumers spent a larger proportion of their income than in any year since 1939, and this together with a considerable increase in their income brought total dollar expenditure on consumers' goods and services about 13 per cent above the 1946. level. A substantial reduction in Dominion Government expenditure on goods and services more than offset increased provincial and municipal outlays. Moderating the effect of the over-all increase in expenditures in Canada was the large expansion in imports of goods, which rose by more than \$700 millions or by nearly 40 per cent from 1946 to 1947. In physical terms the increase in commodity imports was only some 15 per cent, but this addition to the volume of raw materials, capital equipment and other goods available in our market was clearly a counter-inflationary influence.

(1) Dominion Government expenditure on Mutual Aid, UNRRA and other relief is excluded from Government Expenditure and included in Exports.

After allowing for the offset of increased imports, total expenditure on Canadian goods and services, i.e., Gross National Expenditure rose, by roughly \$1,400 millions or about 12 per cent from 1946 to 1947. Since physical production of goods and services was only slightly greater than in 1946, increased expenditure of this magnitude obviously involved higher prices. In the case of private capital investment, where the increase in expenditure was large even in terms of physical volume, the increase was clearly an important factor in pushing up prices. In the case of consumers' expenditure, however, where there was only a small percentage increase in physical volume, higher prices and increased dollar expendi-

ture were largely the result of rising costs of imported goods or materials, and increased prices in export markets.

The combined effect of upward pressure on our price level from foreign and domestic sources was to increase the general wholesale price index by 28 per cent, and the cost of living index by 15 per cent during 1947. Although the situation with respect to wage rates varied considerably among different groups of wage earners, average hourly earnings of hourly rated employees in manufacturing industry rose by about 15 per cent over the year, and their average weekly earnings increased by nearly 16 per cent.

In my last annual report I referred to the fact that Canadian prices had risen considerably less than United States prices since the end of the war. In the intervening year the gap has narrowed to some extent but the general level of prices and costs in Canada is still lower than in the United States and most other countries, in relation to any normal base period.

The fact that we exported nearly \$2,800 millions worth of goods in 1947, that we import goods on almost as great a scale, and that the prices of these goods are directly and immediately affected by external price movements, shows how difficult it is to prevent Canadian prices from being affected by price changes abroad. Short of substantially appreciating its exchange rate and increasing its taxation, no country could have insulated itself completely from the world-wide rise in prices. Theoretically it might be contended that this could be done by means of direct controls, but these would have to be very much more rigorous and complete than those of wartime, to say the least.

EXCHANGE SITUATION

Reduction in Canada's gold and foreign exchange reserves during 1947 has tended to obscure the fact we still exported in that year more goods and services, in total, than we imported. It is evidence of Canada's growing productive capacity that in this period of extraordinary capital development and heavy imports of capital goods we have not, by contrast with 1929 and other earlier periods of boom, had a deficit in our current transactions with the rest of the world as a whole.

Our present foreign exchange problem therefore arose not from inadequate productivity, nor indeed from the character of our production. It has arisen rather from the traditional direction of our exports and imports, and the difficulties which beset our customers in Western Europe. Under present conditions of scarcity, a large part of our surpluses which are normally exported to Europe are of a kind for which there is a strong cash demand outside Europe, but exports have in fact been maintained to our traditional customers even though they were unable to pay cash in full, or to supply Canada with an increased volume of imports.

In my last annual report I referred to the export credits which Canada, along with the United States and other countries, had extended to her war-ravaged allies as part of a broadly based program to rehabilitate their economies and re-establish their ability to trade. During 1947 some \$560 millions of our sales to other countries were financed out of drawings on Canadian export credits, and roughly \$40 millions out of Canadian relief appropriations. For approximately \$600 millions of our sales, therefore, we receive no immediate cash return. At the same time, we had to pay cash for all our purchases from other countries, and our total sales to other countries did not exceed our total purchases from them by more than a comparatively small amount, perhaps of the order of \$70 millions. Consequently we had a cash deficiency on our current transactions with other countries of some \$530 millions, and a drain on our foreign exchange reserves of an equivalent amount. This, together with payment of \$74 millions on our subscription to the International Monetary Fund, redemptions of Canadian bonds held abroad, and other net capital payments abroad, account for the over-all reduction of \$743 millions in our gold and foreign exchange reserves during 1947.

When Canada's export credit program of some \$1,850 millions was undertaken, it was realized that it would involve a considerable drain on our exchange reserves, even if—as was then expected—drawings were spread over a period running to 1950. Owing to the unfavourable developments in Europe referred to in a preceding section, the need for goods from Canada has been greater, supplies available for export to Canada have been less, and drawings on the credits have been more rapid than contemplated. In point of fact, more than three-quarters of the total credits had been drawn by the end of 1947.

Having in mind the present level of our gold and foreign exchange holdings, and the magnitude of our trade with other countries, there is clearly need to increase these holdings. In such circumstances, we need to have an over-all balance of payments surplus greater than the value of any export sales which are financed out of the credits and for which, therefore, no immediate payment is received. The development of a larger balance of payments surplus involves increasing our exports, or reducing our imports, or both. In the last analysis (and apart from an improvement in average export prices relative to average import prices) these can only be achieved by increasing productivity and production, or by reducing or postponing domestic spending, particularly for non-essential capital purposes.

Proposals with regard to a European Recovery Program by the United States are, of course, of great interest to Canada. Implementation of such a program would not remove the need for Canada to increase the present small current account surplus in her over-all balance of payments. We need to increase this surplus if we are to be able to build up our exchange reserves to a more normal level and extend aid to other countries even on a much smaller scale than in recent years. What a European Recovery Program could do, in the short run, is to facilitate the continuance of Canadian shipments to Western European countries where they are badly needed; and without such a program the exchange problem of Canada, and indeed of practically all other Western Hemisphere countries, would be greatly aggravated. But we have an even greater interest in the long-run implications of a European Recovery Program. When the present unusually heavy demand for goods has declined, Canadian exports and employment will be influenced to an important degree by the extent of recovery in Europe. We are, therefore, vitally concerned with any program which will help to strengthen the European economy and reestablish it as a substantial factor in normal international trade.

I turn now to the major changes which took place in the Bank of Canada's accounts during 1947, on which it is customary to comment in this report.

FORM OF STATEMENT OF ASSETS AND LIABILITIES

In accordance with the provisions of Section 33, Subsection 6, of the Bank of Canada Act Amendment Act, certain changes have been made in the form of the Bank's Statement of Assets and Liabilities. In the previous form of this Statement, Bank of Canada's holding of the capital stock of the Industrial Development Bank of necessity was included under the heading "Other Investments". A separate heading for this particular item of our Assets has now been established.

As provided by Section 21 (1) (n) of the Bank of Canada Act Amendment Act, the Bank has maintained working balances with central banks in various other countries. If a country's currency was not Sterling, U.S.A. dollars or convertible into gold, the previous form of the Bank's Statement of Assets and Liabilities did not permit such a balance

being shown as part of our holdings of foreign currency and it was therefore included under the heading "All Other Assets". In view of this situation and the fact that the heading "Reserve", under which the first four Asset items on our Statement have been grouped, does not serve any particular purpose at the present time when Canada's gold and foreign exchange reserves are almost entirely held by the Foreign Exchange Control Board, it has been decided to omit the heading "Reserve" and change "Other Currencies of Countries on a Gold Standard" to "Other Currencies". At the same time the wording of Liability Item 5 on our Statement has been revised along the same lines becoming "Liabilities Payable in Sterling, U.S.A. and Other Foreign Currencies" instead of "Liabilities Payable in Sterling, U.S.A. and Foreign Gold Currencies."

In the following description of the major changes in our accounts during 1947, special reference has been made where comparability has been affected by the foregoing changes in the form of the Bank's Statement of Assets and Liabilities.

NOTES IN CIRCULATION

The Bank of Canada note issue at the end of December, 1947, was \$1,211,350,386, up \$25,148,705 from the same date a year before. Of the total amount of our notes outstanding, \$1,027.4 millions were held by the public and \$183.9 millions by the chartered banks. The increase in notes held by the public was \$18.1 millions as compared with \$43.1 millions in 1946 and was the smallest increase for any year since 1938.

INVESTMENTS

The Bank's holdings of Dominion and Provincial Government securities were \$1,879,554,162 at December 31, 1947, having decreased by \$26,046,847 during the year. This decline in our holdings of Government securities was accounted for by Government taking up certain short-term banking issues held by the Bank, rather than by sales of securities in the market; on the contrary an appreciable amount of short and medium term Government bonds was added to the Bank's portfolio during the year as the result of security transactions with the market.

Section 21 (1) (d) of the Bank of Canada Act Amendment Act provides that the Bank's holdings of government securities not maturing within ten years shall not exceed in par value five times the amount of the paid-up capital and rest fund of the Bank, i.e. \$75.3 millions. The par value of our holdings of such securities on December 31 last was \$44.8 millions as compared with \$45.0 millions a year before.

CAPITAL STOCK OF INDUSTRIAL DEVELOPMENT BANK

At December 31, 1947, the Bank's holding of the capital stock of the Industrial Development Bank amounted to \$25,000,000 and consisted of two hun-

dred and fifty thousand shares. One hundred thousand shares were purchased in 1944 in accordance with the terms of Section 12, Subsection (2) of the Industrial Development Bank Act. To meet the Industrial Development Bank's increased capital requirements, we purchased under the same authority a further fifty thousand shares in 1946 and the remaining one hundred thousand shares of our subscription in 1947. In previous years the Bank's holding of these shares was shown under the heading "Other Investments".

PROFIT AND LOSS

The net profit from our operations in 1947, after providing for contingencies and reserves, was \$19,053,325.43. Payment of a dividend of \$225,000 on capital stock held by the Minister of Finance left \$18,828,325.43 available as compared with \$21,011,194.96 in 1946. The Bank's interest and discount earnings were somewhat less than during 1946, and operating expenses were higher largely because of the increase in the number of our employees referred to in the paragraph on Staff.

BANK RATE

Bank rate remained unchanged during 1947 at 1½ per cent. As in previous years, banks had little occasion to borrow from us.

STAFF

The staff of the Bank including those engaged on duties for the Foreign Exchange Control Board numbered 1,316 at December 31, 1947, an increase on the year of 295. A reduction of 125 in the staff in other departments was more than offset through the assumption by the Bank under the terms of the Foreign Exchange Control Board Act of the obligation to provide the Board with such officers, clerks and employees as may be required by the Board. The rising volume of foreign exchange transactions, the modifications of operating methods resulting from the changes in arrangements for settlement of trade balances with the sterling area and the added duties and responsibilities arising out of the import and travel restrictions announced by the Government last November, have all contributed to the increase in the number of staff engaged on duties for the Board from 240 at the beginning of the year to 420 on December 31.

I wish to record my sincere appreciation of the co-operation of members of the staff, whose duties have been carried out energetically and loyally during the year.

I am, Dear Sir,
Yours faithfully,

G. F. TOWERS, Governor.

Appendix B

MONEY SUPPLY AND RELATED BANK ASSETS

During 1947 the Bank's Research Department developed a presentation of statistics concerning money supply and related bank assets which differs in several important respects from the table which has been presented in previous annual reports. It is believed that the new series provide a better approach to the problem of measuring changes in the volume of money under present-day conditions. In the belief that these statistics will be of interest to those who follow changes in monetary conditions, we are publishing them in this Appendix and also expect to publish them each month in the Bank's Statistical Summary.

In measuring the volume of money one must decide which categories of bank deposits should be classed as "money" and which, by their nature, should be regarded more appropriately as part of the public's other liquid asset holdings such as Government bonds. Generally, it has been satisfactory to classify bank deposits as "money" if cheques may be drawn against them. In other countries this criterion has seemed to work fairly well because cheques may not

be drawn against savings deposits. In Canada, however, cheques are, in practice, drawn freely against savings deposits and this has always posed an awkward problem when trying to assemble volume of money statistics. To omit all savings deposits of chartered banks would ignore the obvious fact that for many people a savings account is an active chequing account which is very similar to a current deposit. On the other hand we know from available information that of the total amount on deposit in savings accounts in Canada, much the larger part is, in practice, inactive. Chartered banks pay interest on the minimum quarterly balances in personal savings accounts, i.e. on the sum which has been left undisturbed for the quarterly period; from the amount of interest which is actually paid on this basis as compared with the nominal rate of interest, it is apparent that the aggregate minimum quarterly balances in personal savings accounts are about five-sixths of the total of such deposits at the present time.

It is therefore felt that a more realistic picture of monetary developments in Canada—and one more comparable with the usual presentation of similar statistics in other countries—is obtained by omitting the minimum quarterly balances in personal savings deposits and non-personal notice deposits, from volume of money statistics. It has seemed preferable to exclude these deposits from the volume of money on the basis that they are inactive in practice rather than to include them on the grounds that they are potentially active because cheques may be issued against them.

The published returns of Canadian chartered banks include among Assets "Cheques on Other Banks" which represents the amount of cheques which have been credited to the deposit account of the payee but not yet cleared against the deposit account of the drawer. To the extent of such items in "float" there is therefore duplication in the figures of bank deposits. In the table contained in this Appendix we have deducted "Cheques on Other Banks" from the figure of chartered bank deposits, in order to eliminate this duplication. A similar deduction is made in the United States in calculating their commercial banks' "Demand Deposits Adjusted".

Government deposits are given different treatment in different countries so far as volume of money statistics are concerned. In various countries including the United States the most commonly used figure of bank deposits excludes Government deposits. On the whole it appears preferable to exclude Dominion Government deposits from the volume of money.

In view of the foregoing items not having been included in the figure of "Money Supply" it has been necessary to make similar offsetting adjustments in the figures of related bank assets. Dominion Government Canadian dollar deposits at chartered banks and the Government account at Bank of Canada have been deducted from the total of Government investments held by Bank of Canada and chartered banks. The result of this deduction is a net figure of Government investments held by the banking system similar to that which would have existed had Government applied cash balances to redeem securities held by banks.

Aggregate minimum quarterly balances in personal savings deposits and non-personal notice deposits have also been shown as a deduction from related bank assets since the same items have been excluded from "Money Supply".

SÉNAT

Avis de bills privés

107. Toute demande adressée au Parlement pour obtenir un bill privé doit être annoncée par avis publié dans la *Gazette du Canada*; cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et désigner l'adresse des signataires; et si la demande a pour objet l'obtention d'une loi en constitution de corporation, l'avis doit aussi mentionner le nom de la compagnie dont la constitution est projetée.

Outre l'avis dans la *Gazette du Canada*, comme susdit, pareil avis doit être donné de la façon suivante :

(A) Lorsque la demande a pour objet l'obtention d'une loi constituant en corporation :

1. Une compagnie de chemin de fer ou de canal—dans un des principaux journaux de la principale cité, ville ou village de chaque comté ou district par où doit passer le chemin de fer ou le canal dont la constitution est projetée;

2. Une compagnie de télégraphe ou de téléphone—dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire dans lequel la compagnie se propose d'exercer des opérations;

3. Une compagnie ayant pour objet l'exécution d'entreprises dont l'exécution ou l'exploitation pourrait spécialement affecter une localité particulière, ou cherchant à obtenir des droits ou privilèges exclusifs, ou voulant accomplir toute affaire ou chose

dont l'accomplissement affecterait les droits ou propriétés d'autrui—dans un des principaux journaux de l'endroit ou des endroits particuliers que le projet de loi peut affecter;

4. Une compagnie de banque; compagnie d'assurance; compagnie fiduciaire; compagnie de prêt ou compagnie industrielle, sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis, et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante :

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention : "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des

ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçu par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examineur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux cents dollars avec les frais d'impression de la loi pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui réédient l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas: crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimé en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

L. C. MOYER,
Greffier du Sénat.

EXTRAIT DU RÈGLEMENT DE LA CHAMBRE DES COMMUNES TOUCHANT LA PUBLICATION DES AVIS

95. (1) Toute pétition introductive de bill privé de quelque nature qu'il soit, doit être annoncée par avis publié dans la *Gazette du Canada*. Cet avis doit exposer clairement et distinctement la nature et l'objet du bill projeté; il doit être signé par les pétitionnaires ou en leur nom, avec indication de l'adresse des signataires. Si la pétition tend à une loi de constitution en corporation, l'avis doit mentionner le nom de la compagnie projetée. Si les travaux d'une compagnie, qu'elle soit constituée en corporation ou qu'il s'agisse de la constituer en corporation doivent être reconnus comme étant destinés à profiter au Canada d'une manière générale, l'avis doit énoncer cette intention expressément, et les pétitionnaires doivent faire parvenir une copie de cet avis par lettre recommandée, au secrétaire de chaque comté ou municipalité que la construction ou la mise en œuvre de ces ouvrages peut intéresser, ainsi qu'au secrétaire de la province où ces mêmes ouvrages sont ou pourront être situés. Tout avis ainsi expédié par lettre recommandée doit être mis à la poste assez tôt pour arriver à destination au moins deux semaines avant la prise en considération du bill par le comité auquel il peut être renvoyé. La preuve que les requérants se sont conformés à cette règle s'établit au moyen d'une déclaration statutaire.

(2) Outre l'avis devant figurer dans la *Gazette du Canada*, il doit en être publié un semblable dans quelque journal important, comme suit:

(A) 1. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de chemin de fer ou de canal, cet avis similaire doit être publié dans la principale cité, ville ou municipalité de village de chaque comté ou district que doit traverser le chemin de fer ou le canal projeté;

2. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de télégraphe ou de téléphone, cet avis similaire doit être publié dans la principale cité ou ville de chaque province ou territoire où la compagnie en question se propose d'établir son service;

3. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie créée en vue de la construction de tous ouvrages dont l'établissement ou la mise en œuvre pourrait intéresser tout particulièrement une localité quelconque, ou en vue de tous droits ou privilèges exclusifs, ou encore en vue de toute opération qui pourrait porter atteinte aux droits ou aux biens d'autrui, cet avis similaire doit être publié dans les diverses localités où la loi projetée pourrait porter atteinte aux affaires, droits ou biens d'autres personnes ou compagnies;

4. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation un établissement bancaire, une compagnie d'assurance, une compagnie de fiducie, une compagnie de prêts ou une compagnie industrielle non dotée de pouvoirs exclusifs, il suffit d'un avis dans la *Gazette du Canada*.

(B) 1. Lorsque la pétition a pour objet de modifier une loi existante en vue de prolongement de tout chemin de fer ou canal ou de la construction d'un embranchement de voie ferrée ou de canal, il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité, ville ou municipalité de village de chaque comté ou district devant être desservi par ce prolongement ou cet embranchement.

2. Lorsque la pétition a pour objet de modifier une loi existante en vue de prorogation du délai fixé pour la construction ou l'achèvement de toute ligne de chemin de fer, de tout embranchement ou prolongement de ligne de chemin de fer, de tout canal, de tout réseau télégraphique ou téléphonique, ou de tout ouvrage déjà autorisé il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité ou ville de chaque district intéressé.

3. Lorsque la pétition a pour objet de modifier une loi existante en vue de la continuation d'une charte ou de l'extension des pouvoirs d'une compagnie (quand elle ne comporte pas la concession de droits exclusifs); ou en vue de l'augmentation ou de la réduction du capital-actions d'une compagnie quelconque; ou en vue de l'accroissement ou de la modification de sa faculté d'émettre des obligations ou de contracter des emprunts d'un autre genre; ou encore en vue de toute modification touchant aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie, il est publié un avis à l'endroit où est situé le siège social de la compagnie ou à l'endroit où la compagnie est autorisée à établir son siège social.

(C) Lorsque la pétition a pour objet d'obtenir, pour quelque personne ou corporation existante, des droits ou privilèges exclusifs ou encore la faculté d'accomplir une chose dont la mise en œuvre intéresserait les droits ou biens d'autrui, il est publié un avis dans les localités où les affaires, les droits ou les biens d'autrui peuvent être spécialement compromis par la loi projetée.

(3) Tout avis de ce genre, qu'il soit inséré dans la *Gazette du Canada* ou dans un journal, doit être publié au moins une fois par semaine durant une période de quatre semaines consécutives. Lorsque la pétition prend naissance dans la province de Québec ou dans la province du Manitoba, l'avis en doit être publié en anglais dans un journal anglais et en français dans un journal français, ainsi qu'en anglais et en français dans la *Gazette du Canada*. S'il n'y a pas de journal dans la localité où il faut annoncer ladite pétition l'avis doit être publié à l'endroit le plus rapproché où est imprimé un journal. La preuve que l'avis en question a été dûment publié s'établit dans chaque cas, par voie de déclaration statutaire. Toute déclaration de cette nature doit être envoyée au greffier de la Chambre, et cela doit porter au dos l'indication: "Avis de bill privé".

Pétitions introductives de bills privés

92. Nulle pétition introductive de bill privé n'est reçue par la Chambre si elle n'est pas présentée dans les six premières semaines de la session. Tout bill privé prenant naissance à la Chambre des communes doit y être présenté dans les deux semaines qui suivent le jour où la pétition a été rapportée favorablement par l'examineur des pétitions ou par le comité du Règlement. Nulle motion portant suspension du présent article ne peut être accueillie à moins que le comité du Règlement n'ait préalablement présenté un rapport recommandant cette suspension, en y consignant les motifs de sa décision.

97. Nulle pétition portant constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie se proposant d'exploiter un canal, ou portant prolongement d'une ligne de chemin de fer ou d'un canal existant ou autorisé, ou portant construction d'un embranchement de voie ferrée ou de canal, ne sera prise en considération par l'examineur, ou par le comité du Règlement, tant qu'il n'aura pas été déposé entre les mains dudit examinateur une carte ou un plan indiquant l'endroit où se trouveront ces ouvrages, et chaque comté, canton, municipalité ou district à travers lequel le chemin de fer, le canal, le prolongement ou l'embranchement projeté doit être construit.

Bills privés

93. (1) Quiconque désire obtenir un bill privé doit déposer entre les mains du greffier de la Chambre, au plus tard le premier jour de la session, une copie de ce bill en anglais ou en français, ainsi qu'une somme suffisante pour en défrayer la traduction, qui est faite par le personnel de la Chambre, et l'impression, qui est exécutée par le département des impressions publiques.

(2) Le promoteur d'un bill privé doit, après la deuxième lecture de ce bill et avant sa prise en considération par le comité qui en est saisi, défrayer l'impression de la loi dans le recueil des statuts et payer un droit de cinq cents dollars.

FRAIS ADDITIONNELS

(3) En sus des frais précités, les droits suivants doivent être imposés et payés:

a) Lorsqu'il y a suspension d'un article du Règlement relativement à un bill ou à la pétition introductive qui s'y rattache	\$ 100
b) Lorsqu'un bill est présenté en Chambre après la huitième semaine et avant l'expiration de la douzième semaine de la session	100
c) Lorsqu'un bill est présenté en Chambre après la douzième semaine de la session	200
d) Lorsque le capital-actions projeté d'une compagnie ne dépasse pas \$250,000...	100
e) Lorsque le capital-actions projeté d'une compagnie dépasse \$250,000, mais n'est pas supérieur à \$500,000.....	200
f) Lorsque le capital-actions projeté d'une compagnie dépasse \$500,000, mais n'est pas supérieur à \$750,000.....	300
g) Lorsque le capital-actions projeté d'une compagnie dépasse \$750,000, mais n'est pas supérieur à \$1,000,000.....	400
h) Lorsque le capital-actions projeté d'une compagnie dépasse \$1,000,000, mais n'est pas supérieur à \$1,500,000.....	600
i) Lorsque le capital-actions projeté d'une compagnie dépasse \$1,500,000, mais n'est pas supérieur à \$2,000,000.....	800
j) Pour chaque million de dollars de capital-actions additionnel ou fraction de million	200

(4) Lorsqu'un bill porte augmentation du capital-actions d'une compagnie existante, le droit additionnel à déboursier est basé sur le tarif précité, et il n'y est fait état que du montant de l'accroissement.

(5) a) Lorsqu'un bill tend à l'augmentation de la faculté d'emprunt d'une compagnie ou en comporte l'augmentation sans qu'il y ait accroissement du capital-actions, le droit additionnel est de trois cents dollars.

b) Lorsqu'un bill porte augmentation à la fois du capital-actions et de la faculté d'emprunt d'une compagnie, le droit additionnel est perçu sur les deux.

(6) Si, à quelque phase du bill, il y a augmentation du capital-actions projeté d'une compagnie ou de sa faculté d'emprunt, le bill en question ne peut franchir une autre étape tant que ces promoteurs n'auront pas soldé les frais occasionnés par cette modification.

(7) Dans la présente règle, l'expression "capital-actions projeté" comprend toute augmentation de capital-actions prévue par le bill; et quand un bill porte faculté d'augmenter à quelque époque le chiffre du capital-actions, le droit additionnel est calculé sur le maximum de l'augmentation projetée, dont le bill fait mention.

(8) Les droits additionnels établis par la présente règle s'appliquent aussi aux bills privés qui ont pris naissance au Sénat; néanmoins, si la pétition introductive d'un bill privé de ce genre a été présentée à la Chambre des communes dans les six premières semaines de la session, les droits additionnels prévus aux alinéas b) ou c) du paragraphe 3 ne sont pas exigibles.

Du bill-type

96. (1) Le greffier en chef des bills privés remplit les fonctions d'examineur des bills privés, et, comme tel, il est tenu d'étudier et de reviser tous les bills privés antérieurement à leur impression, en vue d'y établir une certaine uniformité, lorsque la chose est possible, et de s'assurer qu'ils ont été élaborés conformément aux articles du Règlement de la Chambre relatifs aux bills privés.

(2) Tout bill tendant à la constitution en corporation d'une compagnie doit, lorsqu'il a été adopté une formule de bill-type, être rédigé en conformité de ce modèle, dont il peut être obtenu des exemplaires du greffier de la Chambre. Toute disposition d'un bill de ce genre qui n'est pas conforme au bill-type doit être insérée entre crochets ou soulignée, et elle doit être imprimée de la sorte.

(3) Lorsqu'un bill privé porte modification d'un article, paragraphe ou alinéa quelconque d'une loi existante, ce même article, paragraphe ou alinéa doit être abrogé dans le texte du bill et reconstitué selon la modification que les auteurs du bill veulent y apporter, la nouvelle rédaction devant être soulignée. L'article, le paragraphe ou alinéa que les auteurs veulent faire abroger, ou encore ce qu'il renferme d'essentiel, doit être imprimé sur la feuille du côté droit en regard de ce même article, paragraphe ou alinéa.

(4) Lorsqu'un bill privé tend à abroger un article, paragraphe ou autre partie d'un article, cet article, ce paragraphe ou cette autre partie, ou encore ce qui s'y trouve d'essentiel, doit être imprimé en regard de l'article du bill.

(5) Une note établissant brièvement l'objet d'une disposition d'un caractère exceptionnel ou dont la teneur s'écarte des dispositions du bill-type ou des articles servant de modèle, doit être imprimée en regard de l'article du bill.

CARTE OU PLAN ACCOMPAGNANT LE BILL

98. Nul bill portant constitution en corporation d'une compagnie de chemin de fer ou de canal, nul bill tendant à faire autoriser la construction d'embranchement ou de prolongements se rattachant à des lignes de chemins de fer ou à des canaux existants, nul bill portant modification de la route suivie par un chemin de fer ou un canal exploité par une compagnie déjà constituée en corporation ne doit être pris en considération par le comité des

chemins de fer tant qu'il n'aura pas été produit devant ledit comité, au moins une semaine avant la prise en considération du bill, une carte ou un plan établi sur une échelle d'au moins un demi-pouce au mille, indiquant le territoire sur lequel il est question de construire les ouvrages projetés et aussi les ouvrages analogues qui y ont déjà été construits ou autorisés, ou qui intéressent la région ou la partie de région devant être desservie par les services projetés. Cette carte ou ce plan doit porter la signature de l'ingénieur ou de toute autre personne qui l'a dressé.

SITUATION MONÉTAIRE

Le montant des titres du gouvernement fédéral entre les mains des banques à charte a subi une réduction de \$669 millions en 1947, principalement par suite des remboursements opérés par le gouvernement. Cette réduction aurait dû, en soi, être accompagnée d'une réduction du même montant dans le total des dépôts canadiens dans les banques. Mais elle a été plus que contre-balançée au cours de l'année par une augmentation de \$777 millions dans les prêts canadiens des banques et dans leur portefeuille de titres autres que ceux du gouvernement, et, y compris l'effet des changements sur les autres comptes, le total de leurs dépôts au Canada s'est accru de \$178 millions.

La moyenne quotidienne des réserves des banques à charte en 1947 a été inférieure de \$2 millions à celle de 1946. Néanmoins, le total des dépôts en dollars canadiens a augmenté, comme il est dit ci-dessus. A cause de ces deux raisons, par conséquent, la proportion de l'encaisse bancaire a baissé et sa moyenne a été de 10.8 pour cent en 1947 par rapport à 11.4 pour cent en 1946.

En 1947 le gouvernement fédéral a remboursé le solde des certificats de dépôt émis aux banques à charte les années précédentes et dont le montant en cours s'élevait à \$490 millions au 31 décembre 1946. Ces certificats étaient le principal moyen par lequel le gouvernement pouvait emprunter directement aux banques pour ses besoins pendant la guerre, et à une époque, pendant l'automne de 1945, leur montant a atteint un maximum de \$1,340 millions. En 1947 le gouvernement a également remboursé comptant à l'échéance d'autres émissions dont les banques avaient un bon montant en portefeuille.

Au cours de l'année, les obligations fédérales dans le portefeuille des banques à charte ont subi une diminution nette de \$170 millions (à part les titres bancaires spéciaux comme les certificats de dépôt).

Cette réduction est due en grande partie aux remboursements du gouvernement mentionnés au paragraphe précédent, plutôt qu'au résultat net de ventes sur le marché. Cependant, de temps en temps, au cours de l'année, les banques ont vendu des obligations du gouvernement à courte et à moyenne échéance pour alimenter leur encaisse.

L'augmentation de \$461 millions dans les prêts canadiens des banques à charte en 1947 bat tous les records annuels. Il n'y a pas eu d'augmentation dans les prêts pour faciliter l'achat d'obligations et d'actions à tempérament et plus de la moitié de l'augmentation est due à des prêts au commerce et à l'industrie. D'après nos calculs, les prêts aux marchands de gros et de détail ont monté d'environ \$120 millions en 1947 et ceux aux manufacturiers de \$160 millions. La hausse des prix, un léger surcroît dans le volume des inventaires, et un plus gros chiffre de crédits aux consommateurs, tout cela a contribué à accroître sensiblement les prêts courants des banques au cours de l'année. En outre, des emprunteurs ont assurément obtenu d'autres crédits contre garantie de disponibilités comme inventaires et comptes à recevoir pour payer des frais d'immobilisation.

Le portefeuille des banques à charte en obligations provinciales et municipales s'est accru de \$169 millions en 1947, et leur portefeuille d'obligations autres que celles de gouvernements—principalement de débentures industrielles—de \$147 millions. En ce qui concerne les placements provinciaux, municipaux et industriels, la plus grande partie de l'augmentation du portefeuille des banques est due à des souscriptions à l'émission plutôt qu'à des achats de Bourse. Le tableau ci-dessous indique l'importance de la participation des banques aux achats de ces titres durant les dernières années, et fournit une comparaison entre l'augmentation de ces valeurs dans le portefeuille des banques et le montant net des nouveaux capitaux résultant de leur émission.

Il est clair que le rythme actuel des immobilisations impose des efforts aux ressources humaines et matérielles du Canada et fait monter les prix. En même temps le commerce, qui en général a abordé la période d'après guerre avec une abondance exceptionnelle de fonds liquides, cherche de plus en plus maintenant à se faire financer par les banques.

Dans mon dernier rapport annuel pour 1946, j'ai mentionné qu'au Canada, comme dans la plupart des autres pays, le public préfère depuis quelques années, conserver une partie de plus en plus grande de ses économies sous forme de dépôts portant intérêt.* J'ai ajouté que les banques avaient trouvé nécessaire de placer leur argent en valeurs du gouvernement étant donné qu'elles n'avaient pas toujours l'occasion d'employer ces fonds pour faire des prêts commerciaux.

La situation a radicalement changé en 1947. Une grande expansion s'est produite dans les prêts bancaires et dans les placements en valeurs autres que celles du gouvernement fédéral, comme je l'ai déjà dit plus haut, et par comparaison avec les années précédentes, il a plu au public de mettre une moins grande partie de ses économies sous forme de dépôts portant intérêt. Les banques n'avaient pas l'occasion, comme les années précédentes, de placer leur argent en valeurs du gouvernement, et en 1947 le rapport entre leur avoir en valeurs d'émissions du Dominion et les comptes d'épargne est tombé sensiblement au-dessous du maximum de 90 pour cent convenu entre les banques et le gouvernement au début de 1946.

MARCHÉS DES VALEURS MOBILIÈRES

Les cours des obligations fédérales ont été stables en 1947 et le rendement de l'émission à plus lointaine échéance a été d'environ 2.60 pour cent pendant l'année. Au début de janvier 1948, la Banque a abandonné sa coutume de fournir la cote quotidienne des obligations fédérales aux courtiers en valeurs et aux banques à charte, mais elle a continué à acheter et à vendre sur le marché. Les cours ont baissé à ce moment-là au point de porter à 2.80 pour cent le rendement de l'émission à plus longue échéance des obligations de la Victoire.

Les obligations du Royaume-Uni ont subi de grandes fluctuations en 1947. L'émission à plus longue échéance s'est vendue à un prix donnant un rendement d'environ 3.00 pour cent à la fin de 1947, par comparaison avec 2.40 pour cent environ l'année d'avant. Le cours des obligations des Etats-Unis a peu varié pendant les neuf premiers mois mais une baisse au cours du dernier trimestre a fait monter le rendement de la plus longue échéance de 2.33 à 2.48 pour cent.

Les cours des obligations provinciales, municipales et industrielles ont baissé pendant le dernier trimestre au Canada, ce qui a causé un plus grand écart entre leur rendement et celui des obligations du Dominion.

Le tableau du montant net des nouvelles émissions d'obligations et d'actions canadiennes, moins remboursements, qui figure à titre d'Appendice A, montre un contraste encore plus frappant entre 1947 et les années de guerre que 1946. Le montant en cours des obligations intérieures du Dominion a diminué de \$239 millions en 1947 par comparaison avec une augmentation de \$201 millions en 1946. Il y a eu également une réduction nette de \$346 millions en 1947 dans le montant des certificats de dépôt du Dominion, des bons du Trésor et des billets à court terme.

La première série des Obligations d'épargne du Canada lancée en octobre 1946 est restée en vente jusqu'à la fin d'août 1947. Les ventes de 1947 ont été de \$48 millions, ce qui a fait un total de \$535 millions pour l'émission, dont \$417 millions étaient encore en cours à la fin de 1947. En octobre une deuxième série a été émise et, à la fin de décembre, environ 900,000 personnes avaient souscrit \$267 millions. La deuxième série contient un changement important, en ce sens que les souscriptions sont limitées à \$1,000 par personne au lieu de \$2,000 comme dans la première. De nombreuses lettres ont témoigné de l'à-propos des Obligations d'épargne du Canada, et particulièrement de la valeur du mode de paiement pour ceux qui désirent épargner d'une manière systématique.

Au cours de 1947 il s'est produit une augmentation dans le total de toutes les obligations provinciales, municipales et industrielles en cours. C'est la première augmentation dans le montant de la dette provinciale depuis 1940, la première dans les émissions industrielles depuis 1936, et la première augmentation sensible dans la dette municipale depuis 1932. Le montant des nouvelles émissions d'actions ordinaires et privilégiées a été plus élevé qu'en 1946 et c'est le plus gros depuis de nombreuses années. Dans le groupe des valeurs autres que celles de gouvernements, l'augmentation nette dans le montant en cours est de \$263 millions en 1947 par comparaison avec \$59 millions en 1946 et une réduction nette de \$48 millions en 1945. Vers la fin de 1947 le marché des nouvelles valeurs mobilières manifesta des signes de congestion et les émissions d'actions ordinaires et privilégiées subirent un gros ralentissement.

SITUATION ÉCONOMIQUE À L'ÉTRANGER

Avant d'en venir à la situation économique générale au Canada, il est nécessaire de mentionner brièvement quelques événements à l'étranger. Il y a un an, quoique les pays de l'Europe occidentale fussent encore en train de souffrir de la perte de leurs moyens de production et de leurs placements à l'étranger par suite de la guerre, du manque de combustible et de matières premières. et des bouleversements apportés par la guerre dans leur main-d'œuvre, le rétablissement intérieur paraissait en bonne voie. Mais en 1947, la production dans ces pays a subi une série de revers. Un hiver inusité

* Source: Appendice A, page 30. Les chiffres du tableau sont inférieurs à la réalité par le fait que le montant net des émissions au Canada est diminué du montant net des valeurs dans les portefeuilles étrangers qui ont été appelées au remboursement ou remboursées à l'échéance.

* La Banque a élaboré un plan de statistiques sur le volume monétaire et les avoirs des banques qui diffère sous plusieurs importants aspects du tableau annexé aux rapports annuels précédents. Les nouveaux tableaux figurent à titre d'Appendices B et C.

de neige et de froid a désorganisé les transports et causé une crise de combustible. Au printemps, des inondations ont nui aux semailles. Plus tard, la sécheresse a encore réduit les récoltes de l'Europe occidentale et occasionné une crise d'énergie hydro-électrique. Vers la fin de l'année, des grèves d'origine politique ont entravé la production industrielle.

Comme résultat, bien que les perspectives aient paru meilleures à la fin de l'année que quelques mois auparavant, le rétablissement de l'Europe occidentale avait été gravement retardé, elle avait instamment besoin de grosses importations de vivres de l'hémisphère Ouest pour l'année courante de récolte. Il avait été également de plus en plus clair en 1947 que l'unification économique de l'Allemagne et le rétablissement de commerce normal entre l'Est et l'Ouest de l'Europe serait pour le moins entravé sinon empêché par des facteurs politiques.

ÉTATS-UNIS

Il y a un an on espérait généralement que 1947 apporterait un meilleur équilibre entre l'offre et la demande aux Etats-Unis. Beaucoup de gens prédisaient même qu'il se produirait un recul avant la fin de l'année. Mais rien de cela n'est arrivé en 1947, principalement à cause des infortunes de l'Europe mentionnées plus haut, qui ont inopinément causé une grosse demande de produits américains.

Le total des achats étrangers de marchandises et de services aux Etats-Unis est d'environ \$19 milliards en 1947, par comparaison avec \$15 milliards en 1946, et la conséquence en est encore plus grande que ces chiffres n'indiquent par suite de l'intensité de la demande étrangère pour les produits alimentaires et particulièrement les grains.

Un autre facteur dominant dans la situation actuelle des Etats-Unis est son expansion en matière d'immobilisations. Les dépenses d'immobilisation avaient atteint un chiffre critique au début de 1947 et montraient signe d'hésitation dans la première partie de l'année. Subséquemment, elles ont encore monté malgré la grande hausse des prix, et dépassé \$30 milliards en 1947 par rapport à moins de \$25 milliards en 1946.

Etant donné que ces deux dangereux facteurs de la demande continuaient à prendre de l'accroissement, et que le contrôle des prix n'était plus en vigueur, le niveau des prix aux Etats-Unis est monté sensiblement pendant l'année. L'indice général des prix de gros a enregistré une hausse de 16 pour cent et celui des prix au consommateur environ 9 pour cent. Le salaire moyen de l'heure dans l'industrie manufacturière est monté d'environ 11 pour cent au cours de l'année et la moyenne du salaire hebdomadaire de près de 12 pour cent.

Les prix en 1948 dépendront clairement dans une grande mesure des perspectives de récolte de blé en Europe occidentale et dans les principaux pays exportateurs. L'an dernier le nombre de tonnes de blé récolté dans toute cette région a été inférieur d'environ 12 pour cent à celui de 1946. Une amélioration sensible sur les résultats désappointants de 1947 contribuera fortement à combattre l'inflation.

EMBAUCHAGE ET PRODUCTION AU CANADA

En face d'une grosse demande de marchandises et de la hausse des prix dans le monde entier, l'activité économique au Canada a atteint en 1947 un nouveau

maximum en temps de paix. Il y a un an le chômage était déjà au très bas niveau de moins de 3 pour cent des travailleurs et cette source ne pouvait fournir qu'une faible addition au chiffre net de l'embauchage en 1947. De fait, une autre petite réduction de 30,000 dans le nombre des chômeurs a été à peu près contre-balançée par des cessations volontaires de travail pendant l'année. En conséquence, la plus grande partie de l'augmentation générale de 100,000, soit 2 pour cent, dans l'embauchage général, est attribuable à l'accroissement naturel de la main-d'œuvre, qui en a fourni environ 60,000, et à l'immigration.

Les progrès de la productivité industrielle, généralement lents dans tous les cas, ont été retardés en 1947 par des arrêts continuels dans la livraison de certains matériaux de base comme l'acier. Les renseignements disponibles semblent indiquer que le rendement industriel a augmenté d'environ 10 pour cent au cours de l'année, tandis que le volume de la production agricole a diminué d'environ 7 pour cent par suite du mauvais temps. Il est difficile de calculer le chiffre des services qui comptent pour environ un tiers dans le total de la main-d'œuvre et pour un peu plus que cela dans la valeur de la production totale. Toutefois, la production des services n'a probablement guère été plus grande en 1947 qu'en 1946 et il est possible que le volume général de marchandises et de services n'ait subi qu'une légère augmentation au cours de l'année.

DÉPENSES ET PRIX

Tandis que le volume matériel de la production de marchandises et de services au Canada n'augmentait que légèrement de 1946 à 1947, le total des dollars dépensés en marchandises et services au Canada augmentait sensiblement. Les achats étran-

gers au Canada ont dépassé de 10 pour cent le chiffre extrêmement élevé de 1946 pour une année de paix. Les déboursés de fonds privés en usines, outillage et logements ont augmenté de plus de 50 pour cent, et la valeur comptable des inventaires d'environ 30 pour cent au cours de l'année. Les consommateurs ont dépensé une plus grande partie de leurs revenus que n'importe quelle année depuis 1939, et cela, ajouté à la grosse augmentation de leurs revenus, a porté le chiffre des dollars dépensés en marchandises de consommation et services à 13 pour cent au-dessus de celui de 1946. Une importante diminution dans les dépenses du gouvernement fédéral en marchandises et services a plus que contrebalancé l'augmentation des dépenses provinciales et municipales. L'effet de cette augmentation générale dans les dépenses au Canada a été mitigé par l'augmentation considérable qui a eu lieu dans les importations de marchandises, dont le chiffre a monté de plus de \$700 millions, soit presque 40 pour cent, de 1946 à 1947. Du point de vue des chiffres, l'augmentation dans les importations de marchandises n'est guère que de quelque 15 pour cent, mais cette addition au volume de matières premières, d'instruments de production et d'autres marchandises à notre disposition au pays a certainement aidé la situation.

Déduction faite du plus gros montant compensateur des importations, le chiffre total de nos dépenses en marchandises et services au Canada en 1947, à savoir le chiffre brut des dépenses nationales, est supérieur d'environ \$1,400 millions à celui de 1946, c'est-à-dire à peu près 12 pour cent de 1946 à 1947. Attendu que la production de marchandises et de services n'excédait que légèrement celle de 1946, une différence si considérable est clairement due à la hausse des prix. Dans le cas des immobilisations du public, où la différence est importante même sous le rapport du volume, l'augmentation a clairement été un facteur important dans la hausse des prix. Mais dans le cas des dépenses de consommation, où la différence n'est qu'une faible proportion du volume, la hausse des prix et l'augmentation dans

les dépenses sont en grande partie dues au coût croissant des importations de marchandises ou de matériaux, et à la hausse des prix sur les marchés d'exploitation.

L'effet combiné de la pression exercée sur notre niveau des prix par des sources étrangères et intérieures a été de faire monter l'indice général des prix de gros de 28 pour cent, et l'indice du coût de la vie de 15 pour cent en 1947. Quoique le niveau des salaires ait varié considérablement parmi les différents groupes de travailleurs, la moyenne du salaire de l'heure dans l'industrie manufacturière a également monté d'environ 15 pour cent au cours de l'année et la moyenne du salaire hebdomadaire de près de 16 pour cent.

J'ai dit dans mon dernier rapport annuel que la hausse des prix au Canada avait été beaucoup moins accentuée qu'aux Etats-Unis depuis le fin de la guerre. Au cours de l'année écoulée la différence est devenue moins grande mais le niveau général des prix et des coûts au Canada est encore plus bas qu'aux Etats-Unis et dans la plupart des autres pays, par rapport aux périodes de base normales.

Le fait que nous avons exporté près de \$2,800 millions de marchandises en 1947, que nous en importons presque autant, et que les prix de ces marchandises sont régis directement et immédiatement par les fluctuations des prix étrangers, explique la difficulté de protéger les prix au Canada de l'effet des variations à l'étranger. Aucun pays n'aurait pu se mettre complètement à l'abri de la hausse mondiale des prix sans élever sensiblement le taux de son change et sans recourir à de plus gros impôts. Théoriquement, on peut prétendre qu'on pourrait y arriver au moyen de régies directes, mais il faudrait qu'elles soient beaucoup plus rigoureuses et plus complètes qu'en temps de guerre, pour le moins.

CHANGE ÉTRANGER

La réduction dans les réserves d'or et de change étranger au Canada en 1947 a quelque peu fait oublier que nous avons exporté cette année-là plus de marchandises et de services que nous en avons importés. La croissante capacité productive du Canada est démontrée par le fait que pendant cette époque d'expansion extraordinaire d'immobilisations et d'énormes importations d'instruments de production nous n'avons pas, au contraire de 1929 et des époques précédentes de prospérité, éprouvé de déficit dans notre compte courant avec le reste du monde dans l'ensemble.

Notre problème actuel du change étranger n'a donc pas été causé par l'insuffisance de productivité, ni non plus par la nature de nos produits. Il découle plutôt de la direction traditionnelle de nos exportations et de nos importations et des difficultés auxquelles sont en proie nos clients traditionnels en Europe occidentale. Dans les circonstances actuelles de pénurie, une grande partie de notre surplus qui est normalement exportée en Europe, consiste en marchandises pour lesquelles il existe une grosse demande au comptant ailleurs qu'en Europe, mais nous avons continué à fournir nos clients traditionnels quoiqu'ils soient incapables de nous payer entièrement comptant, ou de nous envoyer une plus grosse quantité de marchandises.

Le rapport de l'an dernier fait allusion aux crédits à l'exportation que le Canada, ainsi que les Etats-Unis et d'autres pays, a ouverts à ses alliés dévastés par la guerre, en partie dans le but général de rétablir leur économie et de remettre leur commerce sur pied. En 1947, nous avons financé quelque \$560 millions de nos ventes à l'étranger au moyen de nos crédits à l'exportation, et environ \$40 millions à

même les fonds de secours canadiens. Pour environ \$600 millions de nos ventes, par conséquent, nous n'avons retiré aucun argent. En même temps, nous étions obligés de payer comptant nos achats dans d'autres pays, et nos ventes totales aux autres pays n'ont excédé nos achats que d'un petit montant, dans les \$70 millions. En conséquence notre compte courant de transactions avec les autres pays a accusé un déficit de près de \$530 millions, ce qui a diminué d'autant nos réserves de change étranger. Cela, ajouté aux \$74 millions de souscription au Fonds monétaire international, aux remboursements d'obligations canadiennes dans les portefeuilles étrangers, et aux autres envois nets de capitaux à l'étranger, explique la réduction générale de \$743 millions dans nos réserves d'or et de change étranger en 1947.

Quand le Canada a entrepris son programme d'environ \$1,850 millions de crédits à l'exportation, on prévoyait de grosses demandes sur les réserves de change, même si, comme on l'espérait alors, les crédits étaient échelonnés jusqu'en 1950. Par suite des infortunes éprouvées par l'Europe mentionnées plus haut, le besoin de produits canadiens a été plus grand, la quantité de marchandises susceptibles d'être exportées au Canada a été plus faible, et les demandes de crédits ont été plus rapides qu'on ne s'y attendait. De fait, plus des trois quarts étaient épuisés à la fin de 1947.

Vu le montant actuel de nos réserves d'or et de change étranger et l'importance de notre commerce avec les autres pays, il est clair qu'il faut accroître ces réserves. Dans ces circonstances, toute exportation à crédit doit être compensée par un soldé général de surplus de recettes au moins égal au montant des ventes d'exportation qui ne sont pas payées comptant. La création d'une plus grosse balance favorable exige une augmentation dans nos exportations, ou une réduction dans nos importations, ou les deux à la fois. En dernière analyse (et à part une hausse dans la moyenne des prix d'exportation par rapport à la moyenne des prix d'importation) on ne peut y arriver qu'en augmentant la productivité et la production, ou en réduisant ou en remettant à plus tard les dépenses au sein du pays, particulièrement pour les immobilisations qui ne sont pas essentielles.

Le programme de rétablissement européen proposé par les Etats-Unis offre naturellement un grand intérêt pour le Canada. La mise à exécution de ce programme ne supprimerait pas la nécessité d'augmenter son surplus de compte courant dans notre balance générale des paiements. Nous avons besoin d'augmenter ce surplus pour arriver à ramener nos réserves de change à un niveau plus normal et aider d'autres pays même sur une plus petite échelle que ces dernières années. Ce qu'un programme de rétablissement européen peut accomplir, pour le moment, est de faciliter la continuation des exportations canadiennes aux pays de l'Europe occidentale qui en ont grandement besoin; et sans programme de ce genre, le problème du change au Canada, et en réalité de

presque toute l'Europe occidentale, serait considérablement aggravé. Mais ce qui nous intéresse encore davantage, c'est l'effet à long terme d'un programme de rétablissement européen. Quand la grosse demande pour les marchandises aura diminué, la mesure dans laquelle l'Europe sera rétablie aura une grande influence sur les exportations canadiennes et l'embouchage au Canada. Nous sommes par conséquent essentiellement intéressés par tout programme susceptible de renforcer l'économie européenne et de la rétablir comme important facteur dans le commerce normal entre les nations.

Je passe maintenant aux changements importants apportés dans les comptes de la Banque du Canada en 1947, et sur lesquels il est d'usage de commenter dans le présent rapport.

FORME DU BILAN

Conformément aux dispositions de l'article 33, paragraphe 6, de la Loi modifiant la Loi sur la Banque du Canada, certains changements ont été apportés à la forme du bilan de la Banque. Dans l'ancienne forme, le capital-actions de la Banque d'expansion industrielle figurait nécessairement sous la rubrique "Autres placements". Ce poste de notre actif a maintenant une rubrique spéciale.

Comme le stipule l'article 21 (1) n) de la Loi modifiant la Loi sur la Banque du Canada, la Banque a conservé des fonds d'opérations dans les banques centrales de divers pays. Quand la monnaie du pays n'était pas la livre sterling, le dollar des Etats-Unis ou convertible en or, l'ancienne forme du bilan de la Banque ne permettait pas de faire figurer ces fonds comme faisant partie de nos devises étrangères et ils étaient par conséquent inclus sous la rubrique "Tout autre actif". Dans ces circonstances et par le fait que la rubrique "Réserve" sous laquelle sont groupés les quatre premiers postes de l'actif du bilan, n'a pas grande utilité en ce moment où les réserves-or et de change étranger du Canada sont presque entièrement entre les mains de la Commission de contrôle du change étranger, il a été décidé d'omettre la rubrique "Réserve" et de changer "Autres devises de pays à étalon or" en "Autres devises". En même temps le n° 5 du passif du bilan a été révisé dans le même sens et devient "Passif payable en sterling, monnaie des Etats-Unis d'Amérique et autres devises étrangères" au lieu de "Passif payable en sterling, monnaie des Etats-Unis d'Amérique et devises-or étrangères".

Dans la description suivante des changements importants apportés à nos comptes en 1947, une explication spéciale accompagne les cas où la comparaison est compliquée par les changements précités dans la forme du bilan de la Banque.

BILLETS EN CIRCULATION

La Banque du Canada avait émis à la fin de 1947 pour \$1,211,350,386 de billets, soit \$25,148,705 de plus que l'année précédente à la même date. Sur ce montant de billets en circulation, \$1,027,400,000 étaient entre les mains du public et \$183,900,000 dans les banques à charte. Le nombre entre les mains du public avait augmenté de \$18,100,000 par comparaison avec \$43,100,000 en 1946 et cette augmentation annuelle est la plus faible depuis 1938.

PLACEMENTS

Le portefeuille d'obligations fédérales et provinciales de la Banque était évalué à \$1,879,554,162 au 31 décembre 1947 et avait diminué de \$26,046,847 pendant l'année. Cette diminution dans notre portefeuille d'obligations de gouvernements s'explique par le remboursement de certaines émissions bancaires à courte échéance que possédait la Banque plutôt que par des ventes sur le marché; au contraire, la Banque a ajouté à son portefeuille un assez gros

montant d'obligations de gouvernements à court et moyen terme qu'elle a achetées sur le marché au cours de l'année.

L'article 21 (1) d) de la Loi modifiant la Loi sur la Banque du Canada stipule que le portefeuille de la Banque en obligations de gouvernements à plus de 10 ans d'échéance ne doit pas excéder en valeur cinq fois le montant du capital versé et des réserves de la Banque, à savoir \$75,300,000. La valeur au pair de ces valeurs dans notre portefeuille au 31 décembre dernier était de \$44,800,000 par comparaison avec \$45,000,000 l'année d'avant.

CAPITAL-ACTIONS DE LA BANQUE D'EXPANSION INDUSTRIELLE

Au 31 décembre 1947, la Banque avait en portefeuille le capital-actions de la Banque d'expansion industrielle évalué à \$25 millions et représenté par deux cent cinquante mille actions. Cent mille actions avaient été achetées en 1944 en conformité des dispositions de l'article 12, paragraphe 2 de la Loi sur la Banque industrielle du Canada. Pour satisfaire les plus grands besoins de capitaux de la Banque d'expansion industrielle, nous avons acheté en vertu de la même autorité une autre tranche de cinquante mille actions en 1946 et les dernières cent mille actions de notre souscription en 1947. Les années précédentes les titres figuraient à notre actif sous la rubrique "Autres titres" du bilan.

PROFITS ET PERTES

Le profit net de nos opérations en 1947, déduction faite des provisions pour éventualités et réserves, est de \$19,053,325.43. Le dividende de \$225,000 sur les actions au nom du ministre des Finances laisse un montant de \$18,828,325.43 par comparaison avec \$21,011,194.96 en 1946. Les recettes d'intérêt et d'escompte de la Banque ont été légèrement inférieures à celles de 1946, et les frais d'exploitation plus élevés par suite du plus grand nombre d'employés mentionné au paragraphe du personnel.

LE TAUX DE LA BANQUE

Le taux de la Banque est demeuré fixe à 1½ pour cent en 1947. Comme au cours des années précédentes, les banques à charte ont eu peu d'occasions de nous demander des emprunts.

PERSONNEL

Le personnel de la Banque, y compris les employés au service de la Commission de contrôle du change étranger se chiffrait à 1,316 au 31 décembre 1947, soit 295 de plus que l'an dernier. Une réduction de 125 dans le personnel d'autres services a été plus que contre-balancée par le fait qu'en conformité des dispositions de la Loi sur la Commission de contrôle des changes la Banque a été obligée de fournir à la Commission les fonctionnaires, les commis et les employés dont elle avait besoin.

Le volume croissant des transactions de change, les modifications de méthodes d'opération occasionnées par les changements dans les modes de règlement des balances commerciales avec la zone sterling, et les nouvelles fonctions et responsabilités résultant des restrictions sur les importations et les voyages annoncées par le gouvernement en novembre, ont contribué à porter le nombre du personnel au service de la Commission de 240 au commencement de l'année à 420 au 31 décembre.

Je profite de l'occasion pour exprimer mes sincères remerciements aux membres du personnel pour leur excellente collaboration ainsi que l'énergie et la loyauté dont ils ont fait preuve dans l'exercice de leurs fonctions au cours de l'année.

Veuillez agréer, monsieur le ministre, l'expression de mes sentiments dévoués.

Le gouverneur,

G. F. TOWERS.

APPENDICE B

VOLUME MONÉTAIRE ET AVOIRS CONNEXES DES BANQUES

Au cours de 1947 le service des études économiques de la Banque a préparé un plan de statistiques sur le volume monétaire et les avoirs connexes des banques qui diffère sous plusieurs importants aspects du tableau publié dans les rapports annuels précédents. A notre avis la nouvelle série permet d'attacher plus facilement le problème de mesurer les fluctuations du volume monétaire dans les circonstances actuelles. Dans l'espoir que ces statistiques intéresseront ceux qui suivent les mouvements de la situation monétaire, nous les ajoutons à titre d'appendice au présent rapport et nous avons également l'intention de les publier chaque mois dans le Sommaire statistique de la Banque.

En mesurant le volume monétaire il faut décider les catégories de dépôts bancaires qu'il y a lieu de classer comme "argent" et celles qui, par leur nature même, sont plus susceptibles d'être considérées comme faisant partie des autres disponibilités du public comme par exemple les obligations de gouvernements. En général, la méthode de classer les

dépôts bancaires comme "argent" a été trouvée satisfaisante quand il est permis de tirer dessus par chèque. Dans d'autres pays cette méthode a donné d'assez bons résultats parce qu'il n'est pas permis de tirer des chèques sur les comptes d'épargne. Au Canada, toutefois, la pratique de tirer des chèques sur les comptes d'épargne est générale et cela a toujours rendu difficile le problème de compiler des statistiques sur le volume monétaire. Négliger tous les comptes d'épargne des banques à charte reviendrait à ignorer le fait évident que pour beaucoup de gens un compte d'épargne est un compte actif sur lequel on peut tirer des chèques et qui ressemble beaucoup à un compte courant. D'un autre côté, nous savons, d'après les chiffres disponibles, que la plus grande partie du montant en dépôt dans les comptes d'épargne est inactive en pratique. Les banques à charte paient intérêt sur le minimum du solde trimestriel des comptes d'épargne personnels, c'est-à-dire sur le montant qui n'a pas été touché au cours du trimestre; d'après le montant d'intérêt payé de ce fait par comparaison avec le taux nominal d'intérêt, il est apparent que le total minimum du solde trimestriel des comptes d'épargne personnels représente environ les cinq sixièmes du total des dépôts actuels.

Nous avons donc jugé qu'il est possible d'obtenir une meilleure idée de l'expansion monétaire au Canada—et de faire des comparaisons avec les statistiques usuelles du même genre dans les autres pays—en omettant le minimum du solde trimestriel des comptes d'épargne personnels et des dépôts sur préavis non-personnels, du volume des statistiques monétaires. Il a paru préférable d'exclure ces dépôts du volume monétaire par le fait qu'ils sont en réalité inactifs en pratique, plutôt que de les inclure parce qu'ils peuvent devenir actifs du fait qu'on peut tirer des chèques dessus.

Les rapports publiés par les banques à charte canadiennes comprennent à l'actif le poste "Chèques sur d'autres banques" qui représente le montant des chèques crédités au compte du bénéficiaire mais pas encore porté au débit du tireur. Le montant de ces chèques "en transit" figure par conséquent deux fois dans le chiffre des dépôts bancaires. Dans le tableau de l'appendice nous avons déduit les "chèques sur d'autres banques" des dépôts des banques à charte pour éviter ce double emploi. Les Etats-Unis font une déduction du même genre en calculant la "Mise au point des dépôts sur demande" de leurs banques commerciales.

Les dépôts du gouvernement sont traités de différentes manières dans différents pays en ce qui concerne les statistiques du volume monétaire. Dans quelques pays, y compris les Etats-Unis, le chiffre le plus usité des dépôts bancaires omet les dépôts du gouvernement. En somme il paraît préférable de ne pas compter les dépôts du gouvernement fédéral dans le volume monétaire.

Par le fait que les montants ci-dessus n'ont pas été compris dans le chiffre du "volume monétaire" il fallut faire des corrections correspondantes dans les chiffres des avoirs connexes des banques. Les dépôts du gouvernement fédéral en dollars canadiens dans les banques à charte et le compte du gouvernement fédéral à la Banque du Canada ont été déduits du total des obligations du gouvernement dans le portefeuille de la Banque du Canada et des banques à charte. Cette déduction a pour résultat de donner un chiffre net du portefeuille-fonds d'Etat du système bancaire, analogue à celui qu'on aurait si le gouvernement avait appliqué ses soldes de caisse au remboursement de ses obligations dans le portefeuille des banques.

Le total minimum du solde trimestriel des comptes d'épargne personnels et des dépôts sur préavis non-personnels ont été également déduits des avoirs connexes des banques attendu qu'ils n'ont pas été compris dans le "Volume monétaire".

APPLICATIONS TO PARLIAMENT

THE SENATE

Copies of the Rules of the Senate relating to Notices and Applications for Bills of Divorce may be had free upon application to the

Clerk of the Senate,
Ottawa.

THE SENATE

Notice for Private Bills

EXTRACTS FROM THE STANDING RULES OF THE SENATE

107. All applications to Parliament for Private Bills, of any nature whatsoever, shall be advertised by a notice published in the *Canada Gazette*. Such notice shall clearly and distinctly state the nature and object of the application, and shall be signed by or on behalf of the applicants, with the address of the party signing the same; and when the application is for an Act of Incorporation, the name of the proposed company shall be stated in the notice.

In addition to the notice in the *Canada Gazette* aforesaid, a similar notice shall be given as follows:

A. When the application is for an Act to incorporate,—

1. *A Railway or Canal Company.*—In some leading newspaper published in the principal city, town or village in each county or district through which the proposed railway or canal is to be constructed.

2. *A Telegraph or Telephone Company.*—In a leading newspaper in the principal city or town in each province or territory in which the company proposes to operate.

3. A company for the construction of any works which in their construction or operation might specially affect a particular locality or for obtaining any exclusive rights or privileges, or for doing any matter or thing which in its operation would affect the rights or property of others.—In a leading newspaper in the particular locality or localities which may be affected by the proposed Act.

4. *A Banking Company; an Insurance Company; a Trust Company; a Loan Company, or an Industrial Company,* without any exclusive powers.—In the *Canada Gazette* only.

5. And, if the works of any company (incorporated or to be incorporated) are to be declared to be for the general advantage of Canada, such intention shall be specially mentioned in the notice; and the applicants shall cause a copy of such notice to be sent by registered letter to the clerk of each county council and of each municipal corporation which may be specially affected by the construction or operation of such works, and also, to the Secretary of the Province in which such works are, or may be located; and proof of compliance with this requirement by the applicants shall be established by statutory declaration.

B. When the application is for the purpose of amending an existing Act,—

1. For an extension of any line of railway, or of any canal; or for the construction of branches thereto,—the same *mutatis mutandis* as for an Act to incorporate a Railway or Canal Company.

2. For an extension of the time for the construction or completion of any line of railway, or of any canal, or of any telegraph or telephone line, or of any other works already authorized:—In a principal newspaper in the place where the head office of the company is, or is authorized to be.

3. For the extension of the powers of a company (when not involving the granting of any exclusive rights) or for the increase or reduction of the capital stock of any company; or for increasing or altering its bonding or other borrowing powers; or for any amendment which would in any way affect the rights or interest of the shareholders or bondholders or creditors of the company:—In a principal newspaper in the place where the head office of the company is situated.

C. All such notices, whether inserted in the *Canada Gazette* or in a newspaper, shall be published at least once a week for a period of four consecutive weeks; and when published in the Provinces of Quebec and Manitoba shall be in both the English and French languages; and marked copies of each issue of all newspapers containing any such notice shall be sent to the Clerk of the Senate, endorsed "Private Bill Notice," or a statutory declaration as to due publication may be sent in lieu thereof.

Every notice by registered letter shall be mailed in time to reach the Secretary of the Province and the clerk of each county council and municipal corporation not less than two weeks before the consideration of the petition by the Committee on Standing Orders; and a statutory declaration establishing the fact of such mailing shall be sent to the Clerk of the Senate.

108. No petition praying for the incorporation of a Railway Company, or of a Canal Company, or for

an extension of the line of any existing or authorized railway or canal, shall be considered by the Standing Orders Committee, until there has been filed with the Committee a map or plan, showing the proposed location of the works, and each county, township, district or municipality through which the proposed railway or canal, or any branch or extension thereof, is to be constructed.

110. Petitions for private bills shall only be received by the Senate if filed with the Clerk of the Senate within the first six weeks of the Session, and every private bill originating in the Senate shall be presented to the Senate within two weeks after the petition therefor has been favourably reported upon by the examiner of petitions or by the Committee on Standing Orders, and no motion for the suspension of this standing order shall be entertained unless a report has been first made by the Committee on Standing Orders recommending such suspension.

114. Any person seeking to obtain a Private Bill shall deposit with the clerk of the Senate, if it is intended that the Bill shall originate in the Senate, a copy of such Bill in the English or French language, with a sum sufficient to pay for the translation of the same by the officers of the Senate, and the printing of 600 copies in English and 200 in French. The applicant shall also pay the Clerk of the Senate, immediately after second reading and before the consideration of the Bill by the Committee to which it is referred, a sum of \$200, with the cost of printing the Act in the Statutes, and lodge the receipt for the same with the Clerk of such Committee.

The fee payable on the second reading of any Private Bill is paid only in the House in which it is introduced.

Form of a Bill to Amend an Act

60A. (1) In the preparation of Bills amending existing enactments the amendments shall not ordinarily be made by clauses which add or leave out words or substitute words for others, but by clauses which re-enact the section, subsection or other minor division, as it is amended.

(2) In the text of the Bill, on the left hand page, new matter shall be indicated by such typographical means as may best suit the varying circumstances of each case, such as brackets, italics, underlining, asterisks, etc. Opposite each clause, on the right hand page, the enactment amended thereby, or so much thereof as is essential, shall be printed with the proposed changes to be made therein similarly indicated.

(3) When a clause repeals an existing section, subsection or other minor division of a section, that section, subsection or division, or so much thereof as is essential, shall be printed opposite the clause.

(4) A memorandum by the draftsman explaining briefly the reason for each clause, shall be appended to the Bill, or distributed therewith. Whenever practicable the memorandum shall be printed on the right hand page of the Bill, in paragraphs opposite the clause referred to and numbered correspondingly.

(5) The above rules shall also as far as practicable apply to the reprinting of Bills.

L. C. MOYER,
Clerk of the Senate.

HOUSE OF COMMONS

Applications and Permit Conditions

4. An application for a timber permit shall be made to the Timber Agent on a form to be furnished by the Department for the purpose.

5. Applications for the cutting of green timber may be refused if there is available a sufficient quantity of dry timber which in the discretion of the Timber Agent, is suitable for the applicant's requirements.

6. Except with the consent of the Director, permits shall not be issued to cut green timber on areas where it is deemed by a Forest Officer that proper forest management requires the prohibition of such cutting.

7. The Timber Agent may add special conditions to a permit to ensure that cutting operations are conducted in accordance with approved silvicultural methods and that logging roads are constructed with a minimum of damage to standing timber.

8. Only such material shall be cut as is authorized by the permit and cutting shall only be done on the lands described in the permit.

9. No trees shall be cut higher than eighteen inches from the ground without special permission from the Timber Agent or a Timber Inspector and when conditions permit, he may direct that no trees shall be cut higher than twelve inches from the ground.

15. A permit shall authorize the holder thereof, to cut, process, and remove the quantity of timber authorized thereby, but it shall not convey to the permittee the exclusive use of the land described therein.

16. No permit shall be transferred or assigned.

17. (1) In each and every permit issued under these regulations, there shall be implied the following conditions and stipulations:

(a) that dues on timber cut under any permit, which are not paid at the time they become due, shall together with interest, be a lien on any timber cut by the permittee or his agents on Dominion lands.

(b) that in case of non-payment of such dues and interest, the Timber Agent or a Timber Inspector acting on his behalf, may seize so much of the timber cut under a permit by the permittee or his agent, as will be, in his opinion, sufficient to secure the payment of such dues, interest and the expenses of seizure and sale, and may detain such timber as security for the payment thereof.

(c) that if payment is not made within three months after such seizure, the Timber Agent may, with the consent of the Director, sell such timber by public auction and after deducting the sum due to the Crown for dues, interest and expenses, he shall pay the balance, if any, to the person who had possession of such timber at the time.

(d) that if no bid equal to the amount due to the Crown is made at the public auction, such timber may be disposed of by private sale.

The sketch shall contain sufficient data to admit of the position of the location applied for being definitely shown in the records of the Department. The location applied for, shall be as nearly as possible rectangular in form and shall be marked by four legal posts (or under special circumstances, posts satisfactory to a timber inspector) firmly fixed in the ground, one at each corner, but in case the tract applied for is not rectangular, one post shall be placed at each corner thereof. On each post shall be written a legible notice containing the full Christian and surname of the applicant, the date of staking, the nature of the application, the area applied for, and the distance in feet to the next post. Should the Timber Agent or a Timber Inspector so require, the lines joining the posts shall be blazed by the applicant.

26. Where the permittee is a sawmill owner, he shall maintain his sawmill in such condition that the lumber sawn from the timber cut under the authority of his permit, is manufactured to a standard satisfactory to the Timber Agent or a Timber Inspector, and if he fails to do so after thirty days' notice in writing, the Director may cancel the permit.

27. (1) When in the opinion of the Director, it is desirable in the public interest to dispose of rights to cut timber in an area by competition, the Timber Agent shall, on instructions from the Director, post notices in post-offices in the vicinity of such area and invite tenders.

(2) The Timber Agent may issue a permit to cut timber in such area to the person who offers and pays the highest cash bonus over and above the payments required to be made pursuant to Section Twenty of these regulations.

Greffier du Sénat,

Ottawa.

SÉNAT

Avis de bills privés

107. Toute demande adressée au Parlement pour obtenir un bill privé doit être annoncée par avis publié dans la *Gazette du Canada*; cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et désigner l'adresse des signataires; et si la demande a pour objet l'obtention d'une loi en constitution de corporation, l'avis doit aussi mentionner le nom de la compagnie dont la constitution est projetée.

Outre l'avis dans la *Gazette du Canada*, comme susdit, pareil avis doit être donné de la façon suivante :

(A) Lorsque la demande a pour objet l'obtention d'une loi constituant en corporation :

1. Une compagnie de chemin de fer ou de canal—dans un des principaux journaux de la principale cité, ville ou village de chaque comté ou district par où doit passer le chemin de fer ou le canal dont la constitution est projetée;

2. Une compagnie de télégraphe ou de téléphone—dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire dans lequel la compagnie se propose d'exercer des opérations;

3. Une compagnie ayant pour objet l'exécution d'entreprises dont l'exécution ou l'exploitation pourrait spécialement affecter une localité particulière, ou cherchant à obtenir des droits ou privilèges exclusifs, ou voulant accomplir toute affaire ou chose dont l'accomplissement affecterait les droits ou propriétés d'autrui—dans un des principaux journaux de l'endroit ou des endroits particuliers que le projet de loi peut affecter;

4. Une compagnie de banque; compagnie d'assurance; compagnie fiduciaire; compagnie de prêt ou compagnie industrielle, sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis, et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante :

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention: "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçu par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six

premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examineur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux cents dollars avec les frais d'impression de la loi pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui rééditent l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas: crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimé en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

L. C. MOYER,
Greffier du Sénat.

EXTRAIT DU RÈGLEMENT DE LA CHAMBRE DES COMMUNES TOUCHANT LA PUBLICATION DES AVIS

95. (1) Toute pétition introductive de bill privé de quelque nature qu'il soit, doit être annoncée par avis publié dans la *Gazette du Canada*. Cet avis doit exposer clairement et distinctement la nature et l'objet du bill projeté; il doit être signé par les pétitionnaires ou en leur nom, avec indication de l'adresse des signataires. Si la pétition tend à une loi de constitution en corporation, l'avis doit mentionner le nom de la compagnie projetée. Si les travaux d'une compagnie, qu'elle soit constituée en corporation ou qu'il s'agisse de la constituer en corporation doivent être reconnus comme étant destinés à profiter au Canada d'une manière générale, l'avis doit énoncer cette intention expressément, et les pétitionnaires doivent faire parvenir une copie de cet avis par lettre recommandée, au secrétaire de chaque comté ou municipalité que la construction ou la mise en œuvre de ces ouvrages peut intéresser, ainsi qu'au secrétaire de la province où ces mêmes ouvrages sont ou pourront être situés. Tout avis ainsi expédié par lettre recommandée doit être mis à la poste assez tôt pour arriver à destination au moins deux semaines avant la prise en considération du bill par le comité auquel il peut être renvoyé. La preuve que les requérants se sont conformés à cette règle s'établit au moyen d'une déclaration statutaire.

(2) Outre l'avis devant figurer dans la *Gazette du Canada*, il doit en être publié un semblable dans quelque journal important, comme suit:

(A) 1. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de chemin de fer ou de canal, cet avis similaire doit être publié dans la principale cité, ville ou municipalité de village de chaque comté ou district que doit traverser le chemin de fer ou le canal projeté;

2. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de téléphone ou de téléphone, cet avis similaire doit être publié dans la principale cité ou ville de chaque province ou territoire où la compagnie en question se propose d'établir son service;

3. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie créée en vue de la construction de tous ouvrages dont l'établissement ou la mise en œuvre pourrait intéresser tout particulièrement une localité quelconque, ou en vue de tous droits ou privilèges exclusifs, ou encore en vue de toute opération qui pourrait porter atteinte aux droits ou aux biens d'autrui, cet avis similaire doit être publié dans les diverses localités où la loi projetée pourrait porter atteinte aux affaires, droits ou biens d'autres personnes ou compagnies;

4. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation un établissement bancaire, une compagnie d'assurance, une compagnie de fiducie, une compagnie de prêts ou une compagnie industrielle non dotée de pouvoirs exclusifs, il suffit d'un avis dans la *Gazette du Canada*.

(B) 1. Lorsque la pétition a pour objet de modifier une loi existante en vue de prolongement de tout chemin de fer ou canal ou de la construction d'un embranchement de voie ferrée ou de canal, il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité, ville ou municipalité de village de chaque comté ou district devant être desservi par ce prolongement ou cet embranchement.

2. Lorsque la pétition a pour objet de modifier une loi existante en vue de prorogation du délai fixé

pour la construction ou l'achèvement de toute ligne de chemin de fer, de tout embranchement ou prolongement de ligne de chemin de fer, de tout canal, de tout réseau télégraphique ou téléphonique, ou de tout ouvrage déjà autorisé il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité ou ville de chaque district intéressé.

3. Lorsque la pétition a pour objet de modifier une loi existante en vue de la continuation d'une charte ou de l'extension des pouvoirs d'une compagnie (quand elle ne comporte pas la concession de droits exclusifs); ou en vue de l'augmentation ou de la réduction du capital-actions d'une compagnie quelconque; ou en vue de l'accroissement ou de la modification de sa faculté d'émettre des obligations ou de contracter des emprunts d'un autre genre; ou encore en vue de toute modification touchant aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie, il est publié un avis à l'endroit où est situé le siège social de la compagnie ou à l'endroit où la compagnie est autorisée à établir son siège social.

(C) Lorsque la pétition a pour objet d'obtenir, pour quelque personne ou corporation existante, des droits ou privilèges exclusifs ou encore la faculté d'accomplir une chose dont la mise en œuvre intéresserait les droits ou biens d'autrui, il est publié un avis dans les localités où les affaires, les droits ou les biens d'autrui peuvent être spécialement compromis par la loi projetée.

(3) Tout avis de ce genre, qu'il soit inséré dans la *Gazette du Canada* ou dans un journal, doit être publié au moins une fois par semaine durant une période de quatre semaines consécutives. Lorsque la pétition prend naissance dans la province de Québec ou dans la province du Manitoba, l'avis en doit être publié en anglais dans un journal anglais et en français dans un journal français, ainsi qu'en anglais et en français dans la *Gazette du Canada*. S'il n'y a pas de journal dans la localité où il faut annoncer ladite pétition l'avis doit être publié à l'endroit le plus rapproché où est imprimé un journal. La preuve que l'avis en question a été dûment publié s'établit dans chaque cas, par voie de déclaration statutaire. Toute déclaration de cette nature doit être envoyée au greffier de la Chambre, et cela doit porter au dos l'indication: "Avis de bill privé".

Pétitions introductives de bills privés

92. Nulle pétition introductive de bill privé n'est reçue par la Chambre si elle n'est pas présentée dans les six premières semaines de la session. Tout bill privé prenant naissance à la Chambre des communes doit y être présenté dans les deux semaines qui suivent le jour où la pétition a été rapportée favorablement par l'examineur des pétitions ou par le comité du Règlement. Nulle motion portant suspension du présent article ne peut être accueillie à moins que le comité du Règlement n'ait préalablement présenté un rapport recommandant cette suspension, en y consignant les motifs de sa décision.

97. Nulle pétition portant constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie se proposant d'exploiter un canal, ou portant prolongement d'une ligne de chemin de fer ou d'un canal existant ou autorisé, ou portant construction d'un embranchement de voie ferrée ou de canal, ne sera prise en considération par l'examineur, ou par le comité du Règlement, tant qu'il n'aura pas été déposé entre les mains dudit examinateur une carte ou un plan indiquant l'endroit où se trouveront ces ouvrages, et chaque comté, canton, municipalité ou district à travers lequel le chemin

de fer, le canal, le prolongement ou l'embranchement projeté doit être construit.

Bills privés

93. (1) Quiconque désire obtenir un bill privé doit déposer entre les mains du greffier de la Chambre, au plus tard le premier jour de la session, une copie de ce bill en anglais ou en français, ainsi qu'une somme suffisante pour en défrayer la traduction, qui est faite par le personnel de la Chambre, et l'impression, qui est exécutée par le département des impressions publiques.

(2) Le promoteur d'un bill privé doit, après la deuxième lecture de ce bill et avant sa prise en considération par le comité qui en est saisi, défrayer l'impression de la loi dans le recueil des statuts et payer un droit de cinq cents dollars.

(3) En sus des frais précités, les droits suivants doivent être imposés et payés:

| b) Lorsqu'un bill est présenté en Chambre après la huitième semaine et avant l'expiration de la douzième semaine de la session | 100 |
| c) Lorsqu'un bill est présenté en Chambre après la douzième semaine de la session | 200 |
| d) Lorsque le capital-actions projeté d'une compagnie ne dépasse pas \$250,000.... | 100 |
| e) Lorsque le capital-actions projeté d'une compagnie dépasse \$250,000, mais n'est pas supérieur à \$500,000..... | 200 |
| f) Lorsque le capital-actions projeté d'une compagnie dépasse \$500,000, mais n'est pas supérieur à \$750,000..... | 300 |

| j) Pour chaque million de dollars de capital-actions additionnel ou fraction de million | 200 |

(4) Lorsqu'un bill porte augmentation du capital-actions d'une compagnie existante, le droit additionnel à déboursier est basé sur le tarif précité, et il n'y est fait état que du montant de l'accroissement.

(5) a) Lorsqu'un bill tend à l'augmentation de la faculté d'emprunt d'une compagnie ou en comporte l'augmentation sans qu'il y ait accroissement du capital-actions, le droit additionnel est de trois cents dollars.

b) Lorsqu'un bill porte augmentation à la fois du capital-actions et de la faculté d'emprunt d'une compagnie, le droit additionnel est perçu sur les deux.

(6) Si, à quelque phase du bill, il y a augmentation du capital-actions projeté d'une compagnie ou de sa faculté d'emprunt, le bill en question ne peut franchir une autre étape tant que ces promoteurs n'auront pas soldé les frais occasionnés par cette modification.

(7) Dans la présente règle, l'expression "capital-actions projeté" comprend toute augmentation de capital-actions prévue par le bill; et quand un bill

porte faculté d'augmenter à quelque époque le chiffre du capital-actions, le droit additionnel est calculé sur le maximum de l'augmentation projetée, dont le bill fait mention.

(8) Les droits additionnels établis par la présente règle s'appliquent aussi aux bills privés qui ont pris naissance au Sénat; néanmoins, si la pétition introductive d'un bill privé de ce genre a été présentée à la Chambre des communes dans les six premières semaines de la session, les droits additionnels prévus aux alinéas b) ou c) du paragraphe 3 ne sont pas exigibles.

Du bill-type

96. (1) Le greffier en chef des bills privés remplit les fonctions d'examineur des bills privés, et, comme tel, il est tenu d'étudier et de reviser tous les bills privés antérieurement à leur impression, en vue d'y établir une certaine uniformité, lorsque la chose est possible, et de s'assurer qu'ils ont été élaborés conformément aux articles du Règlement de la Chambre relatifs aux bills privés.

(2) Tout bill tendant à la constitution en corporation d'une compagnie doit, lorsqu'il a été adopté une formule de bill-type, être rédigé en conformité de ce modèle, dont il peut être obtenu des exemplaires du greffier de la Chambre. Toute disposition d'un bill de ce genre qui n'est pas conforme au bill-type doit être insérée entre crochets ou soulignée, et elle doit être imprimée de la sorte.

(3) Lorsqu'un bill privé porte modification d'un article, paragraphe ou alinéa quelconque d'une loi existante, ce même article, paragraphe ou alinéa doit être abrogé dans le texte du bill et reconstitué selon la modification que les auteurs du bill veulent y apporter, la nouvelle rédaction devant être soulignée. L'article, le paragraphe ou alinéa que les auteurs veulent faire abroger, ou encore ce qu'il renferme d'essentiel, doit être imprimé sur la feuille du côté droit en regard de ce même article, paragraphe ou alinéa.

(4) Lorsqu'un bill privé tend à abroger un article, paragraphe ou autre partie d'un article, cet article, ce paragraphe ou cette autre partie, ou encore ce qui s'y trouve d'essentiel, doit être imprimé en regard de l'article du bill.

(5) Une note établissant brièvement l'objet d'une disposition d'un caractère exceptionnel ou dont la teneur s'écarte des dispositions du bill-type ou des articles servant de modèle, doit être imprimée en regard de l'article du bill.

SÉNAT

Avis de bills privés

107. Toute demande adressée au Parlement pour obtenir un bill privé doit être annoncée par avis publié dans la *Gazette du Canada*; cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et désigner l'adresse des signataires; et si la demande a pour objet l'obtention d'une loi en constitution de corporation, l'avis doit aussi mentionner le nom de la compagnie dont la constitution est projetée.

Outre l'avis dans la *Gazette du Canada*, comme susdit, pareil avis doit être donné de la façon suivante:

(A) Lorsque la demande a pour objet l'obtention d'une loi constituant en corporation:

1. Une compagnie de chemin de fer ou de canal—dans un des principaux journaux de la principale cité, ville ou village de chaque comté ou district par où doit passer le chemin de fer ou le canal dont la constitution est projetée;

2. Une compagnie de télégraphe ou de téléphone—dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire dans lequel la compagnie se propose d'exercer des opérations;

3. Une compagnie ayant pour objet l'exécution d'entreprises dont l'exécution ou l'exploitation pourrait spécialement affecter une localité particulière, ou cherchant à obtenir des droits ou privilèges exclusifs, ou voulant accomplir toute affaire ou chose dont l'accomplissement affecterait les droits ou propriétés d'autrui—dans un des principaux journaux de l'endroit ou des endroits particuliers que le projet de loi peut affecter;

4. Une compagnie de banque; compagnie d'assurance; compagnie fiduciaire; compagnie de prêt ou compagnie industrielle, sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis, et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante:

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention: "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçu par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examineur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux cents dollars avec les frais d'impression de la loi

pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui rééditent l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas: crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimé en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

EXTRAIT DU RÈGLEMENT DE LA CHAMBRE DES COMMUNES TOUCHANT LA PUBLICATION DES AVIS

95. (1) Toute pétition introductive de bill privé de quelque nature qu'il soit, doit être annoncée par avis publié dans la *Gazette du Canada*. Cet avis doit exposer clairement et distinctement la nature et l'objet du bill projeté; il doit être signé par les pétitionnaires ou en leur nom, avec indication de l'adresse des signataires. Si la pétition tend à une loi de constitution en corporation, l'avis doit mentionner le nom de la compagnie projetée. Si les travaux d'une compagnie, qu'elle soit constituée en corporation ou qu'il s'agisse de la constituer en corporation doivent être reconnus comme étant destinés à profiter au Canada d'une manière générale, l'avis doit énoncer cette intention expressément, et les pétitionnaires doivent faire parvenir une copie de cet avis par lettre recommandée, au secrétaire de chaque comté ou municipalité que la construction ou la mise en œuvre de ces ouvrages peut intéresser, ainsi qu'au secrétaire de la province où ces mêmes ouvrages sont ou pourront être situés. Tout avis ainsi expédié par lettre recommandée doit être mis

à la poste assez tôt pour arriver à destination au moins deux semaines avant la prise en considération du bill par le comité auquel il peut être renvoyé. La preuve que les requérants se sont conformés à cette règle s'établit au moyen d'une déclaration statutaire.

(2) Outre l'avis devant figurer dans la *Gazette du Canada*, il doit en être publié un semblable dans quelque journal important, comme suit:

(A) 1. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de chemin de fer ou de canal, cet avis similaire doit être publié dans la principale cité, ville ou municipalité de village de chaque comté ou district que doit traverser le chemin de fer ou le canal projeté;

2. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de télégraphe ou de téléphone, cet avis similaire doit être publié dans la principale cité ou ville de chaque province ou territoire où la compagnie en question se propose d'établir son service;

3. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie créée en vue de la construction de tous ouvrages dont l'établissement ou la mise en œuvre pourrait intéresser tout particulièrement une localité quelconque, ou en vue de tous droits ou privilèges exclusifs, ou encore en vue de toute opération qui pourrait porter atteinte aux droits ou aux biens d'autrui, cet avis similaire doit être publié dans les diverses localités où la loi projetée pourrait porter atteinte aux affaires, droits ou biens d'autres personnes ou compagnies;

4. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation un établissement bancaire, une compagnie d'assurance, une compagnie de fiducie, une compagnie de prêts ou une compagnie industrielle non dotée de pouvoirs exclusifs, il suffit d'un avis dans la *Gazette du Canada*.

(B) 1. Lorsque la pétition a pour objet de modifier une loi existante en vue de prolongement de tout chemin de fer ou canal ou de la construction d'un embranchement de voie ferrée ou de canal, il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité, ville ou municipalité de village de chaque comté ou district devant être desservi par ce prolongement ou cet embranchement.

2. Lorsque la pétition a pour objet de modifier une loi existante en vue de prorogation du délai fixé pour la construction ou l'achèvement de toute ligne de chemin de fer, de tout embranchement ou prolongement de ligne de chemin de fer, de tout canal, de tout réseau télégraphique ou téléphonique, ou de tout ouvrage déjà autorisé il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité ou ville de chaque district intéressé.

3. Lorsque la pétition a pour objet de modifier une loi existante en vue de la continuation d'une charte ou de l'extension des pouvoirs d'une compagnie (quand elle ne comporte pas la concession de droits exclusifs); ou en vue de l'augmentation ou de la réduction du capital-actions d'une compagnie quelconque; ou en vue de l'accroissement ou de la modification de sa faculté d'émettre des obligations ou de contracter des emprunts d'un autre genre; ou encore en vue de toute modification touchant aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie, il est publié un avis à l'endroit où est situé le siège social de la compagnie ou à l'endroit où la compagnie est autorisée à établir son siège social.

(C) Lorsque la pétition a pour objet d'obtenir, pour quelque personne ou corporation existante, des droits ou privilèges exclusifs ou encore la faculté d'accomplir une chose dont la mise en œuvre intéresserait les droits ou biens d'autrui, il est publié un avis dans les localités où les affaires, les droits ou les biens d'autrui peuvent être spécialement compromis par la loi projetée.

(3) Tout avis de ce genre, qu'il soit inséré dans la *Gazette du Canada* ou dans un journal, doit être publié au moins une fois par semaine durant une période de quatre semaines consécutives. Lorsque la pétition prend naissance dans la province de Québec ou dans la province du Manitoba, l'avis en doit être publié en anglais dans un journal anglais et en français dans un journal français, ainsi qu'en anglais et en français dans la *Gazette du Canada*. S'il n'y a pas de journal dans la localité où il faut annoncer ladite pétition l'avis doit être publié à l'endroit le plus rapproché où est imprimé un journal. La preuve que l'avis en question a été dûment publié s'établit dans chaque cas, par voie de déclaration statutaire. Toute déclaration de cette nature doit être envoyée au greffier de la Chambre, et cela doit porter au dos l'indication: "Avis de bill privé".

Pétitions introductives de bills privés

92. Nulle pétition introductive de bill privé n'est reçue par la Chambre si elle n'est pas présentée dans les six premières semaines de la session. Tout bill privé prenant naissance à la Chambre des communes doit y être présenté dans les deux semaines qui suivent le jour où la pétition a été rapportée favorablement par l'examineur des pétitions ou par le comité du Règlement. Nulle motion portant suspension du présent article ne peut être accueillie à moins que le comité du Règlement n'ait préalablement présenté un rapport recommandant cette suspension, en y consignant les motifs de sa décision.

97. Nulle pétition portant constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie se proposant d'exploiter un canal, ou portant prolongement d'une ligne de chemin de fer ou d'un canal existant ou autorisé, ou portant construction d'un embranchement de voie ferrée ou de canal, ne sera prise en considération par l'examineur, ou par le comité du Règlement, tant qu'il n'aura pas été déposé entre les mains dudit examinateur une carte ou un plan indiquant l'endroit où se trouveront ces ouvrages, et chaque comté, canton, municipalité ou district à travers lequel le chemin de fer, le canal, le prolongement ou l'embranchement projeté doit être construit.

Bills privés

93. (1) Quiconque désire obtenir un bill privé doit déposer entre les mains du greffier de la Chambre, au plus tard le premier jour de la session, une copie de ce bill en anglais ou en français, ainsi qu'une somme suffisante pour en défrayer la traduction, qui est faite par le personnel de la Chambre, et l'impression, qui est exécutée par le département des impressions publiques.

(2) Le promoteur d'un bill privé doit, après la deuxième lecture de ce bill et avant sa prise en considération par le comité qui en est saisi, défrayer l'impression de la loi dans le recueil des statuts et payer un droit de cinq cents dollars.

FRAIS ADDITIONNELS

(3) En sus des frais précités, les droits suivants doivent être imposés et payés:

- a) Lorsqu'il y a suspension d'un article du Règlement relativement à un bill ou à la pétition introductive qui s'y rattache \$ 100

- b) Lorsqu'un bill est présenté en Chambre après la huitième semaine et avant l'expiration de la douzième semaine de la session 100
- c) Lorsqu'un bill est présenté en Chambre après la douzième semaine de la session 200
- d) Lorsque le capital-actions projeté d'une compagnie ne dépasse pas \$250,000.... 100
- e) Lorsque le capital-actions projeté d'une compagnie dépasse \$250,000, mais n'est pas supérieur à \$500,000..... 200
- f) Lorsque le capital-actions projeté d'une compagnie dépasse \$500,000, mais n'est pas supérieur à \$750,000..... 300
- g) Lorsque le capital-actions projeté d'une compagnie dépasse \$750,000, mais n'est pas supérieur à \$1,000,000..... 400
- h) Lorsque le capital-actions projeté d'une compagnie dépasse \$1,000,000, mais n'est pas supérieur à \$1,500,000..... 600
- i) Lorsque le capital-actions projeté d'une compagnie dépasse \$1,500,000, mais n'est pas supérieur à \$2,000,000..... 800
- j) Pour chaque million de dollars de capital-actions additionnel ou fraction de million 200

(4) Lorsqu'un bill porte augmentation du capital-actions d'une compagnie existante, le droit additionnel à déboursier est basé sur le tarif précité, et il n'y est fait état que du montant de l'accroissement.

(5) a) Lorsqu'un bill tend à l'augmentation de la faculté d'emprunt d'une compagnie ou en comporte l'augmentation sans qu'il y ait accroissement du capital-actions, le droit additionnel est de trois cents dollars.

b) Lorsqu'un bill porte augmentation à la fois du capital-actions et de la faculté d'emprunt d'une compagnie, le droit additionnel est perçu sur les deux.

(6) Si, à quelque phase du bill, il y a augmentation du capital-actions projeté d'une compagnie ou de sa faculté d'emprunt, le bill en question ne peut franchir une autre étape tant que ces promoteurs n'auront pas soldé les frais occasionnés par cette modification.

(7) Dans la présente règle, l'expression "capital-actions projeté" comprend toute augmentation de capital-actions prévue par le bill; et quand un bill porte faculté d'augmenter à quelque époque le chiffre du capital-actions, le droit additionnel est calculé sur le maximum de l'augmentation projetée, dont le bill fait mention.

(8) Les droits additionnels établis par la présente règle s'appliquent aussi aux bills privés qui ont pris naissance au Sénat; néanmoins, si la pétition introductive d'un bill privé de ce genre a été présentée à la Chambre des communes dans les six premières semaines de la session, les droits additionnels prévus aux alinéas b) ou c) du paragraphe 3 ne sont pas exigibles.

Du bill-type

96. (1) Le greffier en chef des bills privés remplit les fonctions d'examineur des bills privés, et, comme tel, il est tenu d'étudier et de réviser tous les bills privés antérieurement à leur impression, en vue d'y établir une certaine uniformité, lorsque la chose est possible, et de s'assurer qu'ils ont été élaborés conformément aux articles du Règlement de la Chambre relatifs aux bills privés.

(2) Tout bill tendant à la constitution en corporation d'une compagnie doit, lorsqu'il a été adopté une formule de bill-type, être rédigé en conformité

de ce modèle, dont il peut être obtenu des exemplaires du greffier de la Chambre. Toute disposition d'un bill de ce genre qui n'est pas conforme au bill-type doit être insérée entre crochets ou soulignée, et elle doit être imprimée de la sorte.

(3) Lorsqu'un bill privé porte modification d'un article, paragraphe ou alinéa quelconque d'une loi existante, ce même article, paragraphe ou alinéa doit être abrogé dans le texte du bill et reconstitué selon la modification que les auteurs du bill veulent y apporter, la nouvelle rédaction devant être soulignée. L'article, le paragraphe ou alinéa que les auteurs veulent faire abroger, ou encore ce qu'il renferme d'essentiel, doit être imprimé sur la feuille du côté droit en regard de ce même article, paragraphe ou alinéa.

(4) Lorsqu'un bill privé tend à abroger un article, paragraphe ou autre partie d'un article, cet article, ce paragraphe ou cette autre partie, ou encore ce qui s'y trouve d'essentiel, doit être imprimé en regard de l'article du bill.

(5) Une note établissant brièvement l'objet d'une disposition d'un caractère exceptionnel ou dont la teneur s'écarte des dispositions du bill-type ou des articles servant de modèle, doit être imprimée en regard de l'article du bill.

CARTE OU PLAN ACCOMPAGNANT LE BILL

98. Nul bill portant constitution en corporation d'une compagnie de chemin de fer ou de canal, nul bill tendant à faire autoriser la construction d'embranchement ou de prolongements se rattachant à des lignes de chemins de fer ou à des canaux existants, nul bill portant modification de la route suivie par un chemin de fer ou un canal exploité par une compagnie déjà constituée en corporation ne doit être pris en considération par le comité des chemins de fer tant qu'il n'aura pas été produit devant ledit comité, au moins une semaine avant la prise en considération du bill, une carte ou un plan établi sur une échelle d'au moins un demi-pouce au mille, indiquant le territoire sur lequel il est question de construire les ouvrages projetés et aussi les ouvrages analogues qui y ont déjà été construits ou autorisés, ou qui intéressent la région ou la partie de région devant être desservie par les services projetés. Cette carte ou ce plan doit porter la signature de l'ingénieur ou de toute autre personne qui l'a dressé.
